This statement does not stop us from taking additional enforcement action if further relevant information comes to light or offences continue.

4. Details of our assessment

On the 6th of June 2023 Dwr Cymru notified Natural Resources Wales of a rising main leak within the sewage pumping station compound at Gorad Road. Photographs were then provided by Dwr Cymru which showed a slight discolouration of an adjoining ditch due to this leak.

This CAR form is being sent as the pumping station is permitted and the discharge to the ditch was other than the permitted discharge point.

Please explain why this incident happened and what action will be taken to prevent a re-occurrence.

If you have any queries about this report, or to discuss completion of any actions, please contact the NRW Officer named above.
