

Notice of variation and consolidation with introductory note

The Environmental Permitting (England & Wales) Regulations 2016

ROCKWOOL Limited

**Pencoed ROCKWOOL
Wern Tarw
Pencoed
Bridgend
CF35 6NY**

Variation number

EPR/BS6149IQ/V011

Permit number

EPR/BS6149IQ

Pencoed ROCKWOOL

Permit number EPR/BS6149IQ

Introductory note

This introductory note does not form a part of the notice.

The following notice gives notice of the variation and consolidation of an environmental permit.

Rockwool limited have applied to vary their permit for the Pencoed ROCKWOOL site to make the following changes

- The addition of a flue gas desulphurisation abatement plant on line 3 cupola and associated emission point A19 to allow the site to meet the best available technique (BAT) emission limit of 1400 mg/m³.
- Extend the waste accepted under table S2.2 to allow the site to accept waste products manufactured at Rockwool's other sites (Rockfon Materials).
- Add a discharge point to sewer. The emissions to sewer are discharged from a settlement tank that had previously primarily discharged to surface water (W1). The discharge to surface water will now only occur during an overflow of the settlement tank.
- Removal of a 4.1 Part A(1) a(ii) activity (formally AR2) and associated emission points A27 and A28. This activity was for the production of resins which is no longer carried out on site.
- Removal of references to one of the Pipe Section plants RSM 3 and its associated emission point A13c as this has removed from the site.

The schedules specify the changes made to the permit.

The status log of a permit sets out the permitting history, including any changes to the permit reference number.

Status log of the permit

| Description | Date | Comments |
|------------------------------------|-----------------------|----------|
| Application BS6149 | Duly made 18/07/02 | |
| Request for additional information | 23/09/02 | |
| Additional information received | 28/03/03 | |
| Request for additional information | 27/12/02 | |
| Additional information | 28/03/03 and | |

Status log of the permit

| Description | Date | Comments |
