Your ref: EPR/BS6149IQ**

Date: 16/03/2023

Dear Mrs Hillman

We need more information about your application

**Application reference: PAN-019896 (EPR/BS6149IQ/V011)
Operator: Rockwool Limited
Facility: Pencoed Rockwool, Wern Tarw, Pencoed, Bridgend, CF35 6NY**

Thank you for your application received on 15/11/2022.

Unfortunately, we need more information from you on the application before we can continue working on it.

Please provide us with the following within 10 working days from the date of this letter:

- 1) Provide us with more information to question Form Part C2 question 2b. In your non-technical summary you have proposed amendments to the permit introductory note to include references to unabated emissions during abnormal operating conditions. Can you specify if this is a change in operating conditions and more details of when this is likely to occur. Please note that the introductory note of the permit is only a summary of the site and does not form part of the activities authorised by the environmental permit.
- 2) Under Section 4 Additional Updates in the application document "*Application for a variation to EPR permit BS6149IQ to Install Flue Gas Desulphurisation Equipment on Line 3 Cupola (A19) Desulphurisation in Line 3' dated October 2022*", the bulleted 'updates' have no supporting information provided, can you clarify if this is part of the operator initiated variation.
 - a. Information to vary the permit in respect of a change to emissions to water or sewer would need to include but not limited to the following:

Croesewir gohebiaeth yn y Gymraeg a'r Saesneg
Correspondence welcomed in Welsh and English

- Confirm which surface water discharge point in the permit (W1 or W2) is now going to sewer.
 - Specify if this surface water discharge point listed in the permit has now been fully replaced by the trade effluent consent (and thereby removed from the permit) or confirm if it is still in use.
 - Provide a national grid reference (NGR) for the discharge point to sewer so that this can be referenced in the permit.
 - Provide an amended site plan show the location of the point where the effluent enters the sewer (list this as S1).
 - Provide a copy of the trade effluent consent.
- b. There is no detail in the application regarding the change in details of the return of waste stone to the site. Please specify what details on the current waste authorised in the permit, have changed or what details need to be amended. Can you also confirm if this is referring to the wastes authorised under the waste codes listed in Table S2.2 of the permit.

If you need advice about how to complete the form, please contact your local area office. Call 0300 065 3000 and ask to speak to your local area office or your site officer.

Please reply within 10 working days from the date of this letter. If we don't hear from you we must return your application and fee.

If you email or write to us please quote the application reference EPR/BS6149IQ/V011 (PAN-019896) on any correspondence and send it to the relevant address below.

When we receive the missing items we'll continue to check the details in your application. If there's enough there for us to begin the process of deciding whether or not we can grant your application we say the application is 'duly made' and we'll let you know this by letter.

Please quote our reference if you contact us. If you have any questions please phone me on 03000 65 4448 or email William.wallace@naturalresourceswales.gov.uk.

Yours sincerely

William Wallace
Permitting Officer Installations and RSR permitting
