Correspondence welcomed in Welsh and English

Schedule

1. 'Kronospan Dispersion Modelling Assessment' dated 2 March 2023 ref S2376-0030-0005RSF refers to the following:

As such Kronospan is submitting this variation application to:

- Change the NOx ELV from A33 (WESP21) from the permitted 100mg/Nm³ to 200mg/Nm³

In the current consolidated permit for the Chirk Particleboard Factory there are no emission limit values on emission point A33 so it is considered that this is a typographical error in respect of A32.

Kronospan Ltd to review the report and resubmit with the correct emission point for the proposed change. A covering letter should accompany the re-submission stating what has been amended.

2. 'Kronospan EP Variation' dated 2 March 2023 ref S2376-0260-0001HKL also references A33 under the air quality section 4.1.

Kronospan Ltd to resubmit this report and reference the correct emission point associated with the proposed change. Again please provide a covering letter that outlines what has been amended within the resubmission.
