Dear Tom,

Water Resources Act 1991  
Discharge Consent No. CG00710-01

Can you help me please? Due to validation exercise the above consent is, for some reason, pending on computer. Can you confirm the present position with regards to this consent, whether the discharge is still in operation or not. Also if the consent is no longer required please give authorisation to revoke it.

If the discharge is still operational, the Authority may require to review the existing consent to reflect the proper name and address of discharger and also to bring it up to the required present day standard of conditions.

I enclose a copy of the consent to assist you in this matter.

Many thanks in anticipation of your kind attention

Yours sincerely,

APPLICATION TO DISCHARGE SEWAGE AND TRADE EFFLUENT BY MR JOHN ARTHUR

APPLICATION NO: CG0071001**

Further to my letter of 6<sup>th</sup> February 2004 the Agency has decided that the proposed discharge will have an appreciable effect on the receiving water and therefore needs to be advertised.

Although the Agency is in a position to undertake the advertising on your behalf, you should be aware that there is the option to self-advertise an application for a discharge consent. The template needed to advertise the application to discharge is attached for your attention.

**Please contact us within 10 working days to inform us as to whether or not you propose to self-advertise. If we do not hear from you, the Agency will assume that you do not wish to self-advertise, and will proceed to advertise on your behalf and invoice you accordingly.**

The advertising procedure requires that a legal notice is placed in the London Gazette and in a paper local to Parc Cefni, Bodffordd, Ynys Mon. Our Regulatory Water Quality function recommends that the local advert be placed in the Daily Post.

An application for the advert will need to be placed in each paper no later than **seven days from the date of this letter**, to appear no later than **three weeks from date of this letter**. Dates of publication need to be forwarded to the Agency using the attached 'EA Notification Template'.

Copies of both advertisements need to be forwarded to myself, Ruth Prichard, at the address below, *within 7 days of publication*.

Dear Mr Jones,

**RE: WATER RESOURCES ACT 1991, SCHEDULE 10 (AS AMENDED BY THE ENVIRONMENT ACT 1995) APPLICATION FOR VARIATION OF CONSENT TO DISCHARGE NO CG0071001**

Further to your application for variation of consent of the Agency to discharge under the provisions of Section 88 of the Water Resources Act 1991, I enclose the Agency's formal notice of the variations made to the conditions of the consent to discharge sewage effluent from Parc Cefni, Bodffordd, Ynys Mon, LL77 7PJ.

Under the present Scheme of Charges for Discharges to Controlled Waters an annual charge will be made for all consents to discharge, except where the discharge is of sewage effluent of five cubic metres or less per day. This charge is based on information derived from the conditions attached to the consent to discharge, as outlined in the enclosed leaflet. A change in conditions may therefore result in a change in annual charge, you may therefore receive a revised bill in due course.

If you are not satisfied with the new conditions of the consent you may appeal against the decision to the National Assembly for Wales at Cathays Park, Cardiff CF10 3NQ.

Please take careful note that if the holder of the consent changes, you must inform the Agency IN WRITING as soon as possible of the name of the new holder. This to ensure that the rights and charges associated with the Consent are transferred to the new holder. A certificate of Holder notice will be sent to you shortly which is designed for this purpose, and should be kept safely with the Consent until required.

Dear Sir,

Regarding the application at Boffield  
apud, SA 435 1000 from the local authority concerning  
what has been the water table especially if the  
aquifer breaks down to create a water table.

This remained unbroken floors over the existing  
embankment from the river, in winter and during  
heavy rain. It also seeps through it in  
numerous places.

With the recent opening of a cycle track in this  
embankment which has been raised again in some  
places (but not in all the right places) more children  
will be playing in this water course.

This drained water course also flows through  
the popular Bushy and Dingle area of Boffield  
which is a local nature reserve where myself,  
my children, and hopefully my grand children  
will be playing and bathing at the the Boffield P.P.

I know that the Boffield Sewage Plant  
also discharges into this watercourse, which I am  
not happy about but that was there before so I am  
not happy about the sewage being discharged to  
it at all.

I would like to see the water table  
measured over a long period of time and  
also to see the water table measured over a long  
period of time.

Yours faithfully,

John J. Buckley
