3. What will happen next?

Any non-compliance we have identified and recorded on this form is an offence. It can result in criminal prosecution and/or suspension or revocation of your permit.

At this time, we do not intend to take any further action.

This statement does not stop us from taking additional enforcement action if further relevant information comes to light or offences continue.

4. Details of our assessment

Unannounced site inspection by Michael Edwards and Sally Wakeford of Natural Resources Wales.

Condition 1.1.3 Any person having duties that are or may be affected by the matters set out in these standard rules shall have convenient access to a copy of them kept at or near the place where those duties are carried out.

During the inspection the operator was unable to provide the documentation on request as required. As discussed during the inspection this has been scored as a **Category 3 Breach** of the above condition.

Action – Ensure that the working plan and permit are available on request as required under the conditions of the permit.

Under condition 1.1.4 The operator shall comply with the requirements of an approved competence scheme.

Action - Please provide evidence that demonstrates compliance with this condition.

Under condition 2.2.1 Waste shall only be accepted if: (a) it is of a type and quantity listed in table 2.2a and 2.2b below; and (b) it conforms to the description in the documentation supplied by the producer and holder.

During the inspection no non-conforming wastes were identified with wastes were stored inline with **condition 2.3.1** The activities shall be operated using the techniques and in the manner described in **Table 2.3**.

All waste activities were carried out within the boundary of the permit as required under **condition 2.4.1**.

Condition 3.4.1 requires the site manage and operate in accordance with a written fire prevention plan using the current, relevant fire prevention plan guidance.

Action – Please provide a copy of the current Fire Prevention and Mitigation Plan as required under the above condition.

As discussed on site a review of the Annual waste returns would be completed following the inspection of on site operations.

Under **condition 4.2.2** *Within one month of the end of each year, the operator shall submit to Natural Resources Wales using the form made available for the purpose, the information specified on the form relating to the site and the waste accepted and removed from it during the previous year.*

Natural Resources Wales is yet to receive the annual waste returns for 2021 and 2022. This has been scored as a **category 4 breach** of the above condition.

Action – Submit all missing waste returns as required under the permit.

Thank you for your time during the inspection. End.

Any compliance criteria not highlighted in the above summary should be considered as not assessed. In this document 'Natural Resources Wales' means the Natural Resources Body for Wales established by Article 3 of the Natural Resource Body for Wales (Establishment) Order 2012. You should note that the Natural Resources Body for Wales has been formed by bringing together the Countryside Council for Wales, Forestry Commission Wales and Environment Agency Wales. The Natural Resources Body for Wales has been empowered to exercise Welsh devolved functions since 1 st April 2013 and has, generally, taken over the responsibilities of the Countryside Council for Wales, the Forestry Commissioners and the Environment Agency for Wales.

If you have any queries about this report, or to discuss completion of any actions, please contact the NRW Officer named above.

Important information

Legal status of this report

Your permit is issued to you under the Environmental Permitting Regulations. You have a responsibility to comply with the conditions of your permit and prevent pollution/harm of the environment. You must also ensure that you comply with any other relevant legislation that may apply to your site's operations.

This report explains the findings of our assessment and any action you are required to take. We categorise non-compliance using our guidance for assessing non-compliance at regulated sites.

When we find potential non-compliance/s we will normally give you advice on how to maintain compliance.

To correct non-compliance, we may:

- require you to take specific actions
- issue a notice
- review the conditions of your permit.

Any advice and guidance we give will be without prejudice to any other enforcement response that we consider may be required.

Assessment results and non-compliance categories (used in section 1):

Assessment result	Description
Assessed (A)	Assessed or assessed in part, no evidence of non-compliance found
Action only (X)	Action only relating to the activity assessment
Ongoing (O)	Ongoing non-compliance, not scored

Non-compliance category	Description	Score
C1 Major	Potential to have a major, serious, persistent and/or extensive impact or effect on the environment, people and/or property	60
C2 Significant	Potential to have a significant impact or effect on the environment, people and/or property	31
C3 Minor	Potential to have a minor or minimal impact or effect on the environment, people and/or property	4
C4 No environmental impact	Non-compliance at a regulated site that cannot foreseeably have any impact on the environment, people and/or property	0.1

How we use assessment scores

The number and severity of non-compliances recorded in a year will affect your annual subsistence fee the following year. A non-compliance factor is added to your site's Operator

Performance Risk Appraisal (OPRA) score when we calculate your fee to reflect the additional resource we use to assess permit compliance.

What are suspended scores?

In line with our guidance, we may suspend scores for up to six months to allow time for remedial action to be taken. Suspended scores will be re-instated if the action is not completed.
