- 3.6.3** The Licence Holder must notify the Source Data Receipt Team, UK Hydrographic Office on sdr@ukho.gov.uk within **10 days** of completion of the Licensed Activities. The information provided must include: latitude and longitude coordinates in WGS84 (ETRS89) datum of the installed works on and/or above the seabed, any changes to engineering drawings, post dredge surveys, details of new or changed aids to navigation where applicable.

3.7 Accident or Emergency

- 3.7.1** If, by reason of force majeure any substances or articles are deposited otherwise than as permitted as part of the Licensed Activities or in the Licensed Area full details of the circumstances shall be notified to the Licensing Authority within **48 hours** of the incident occurring.
- 3.7.2** If it is necessary for the Licence Holder to recover or remove any equipment, plant or machinery used to undertake the Licensed Activities that have been dropped as a result of an accident or emergency, the Licence Holder is permitted to do so provided that the methodology for such recovery or removal has been approved by the Licensing Authority.

3.8 Distribution of Copies of this Licence

The Licence Holder is required to ensure that a copy of this Licence is given to:

- All agent(s), contractor(s) and sub-contractor(s) whose names have been provided to the Licensing Authority under condition 3.3 and
- The Masters of any vessels and transport managers responsible for the vehicles employed in accordance of this Licence whose details have been submitted to the Licensing Authority under condition 3.2.

3.9 Inspection of Documents

Copies of this Licence shall be made available at the following locations:

- at the address of the Licence Holder specified in section 1.2;
- at any site office, located at or adjacent to the Licensed Area, used by the Licence Holder or its agent(s), contractor(s) or sub-contractor(s) responsible for the loading transportation or deposit of any substances or articles permitted as part of the Licensed Activities;

Licence Number: DML2162v1

- on board each vessel or vehicle carrying out Licensed Activities.

The documents referred to in this Condition shall be available at all reasonable times for inspection by officers appropriately authorised by the Licensing Authority and authorised Marine Enforcement Officers at the locations stated in that paragraph.

Vessels, Plant and Equipment

3.10 Notified Contractors, Vessels and/or Vehicles only to Carry out Licensed Activities

Only those agent(s), contractor(s), sub-contractor(s), vessels and/or vehicles whose details have been notified to the Licensing Authority may operate under the terms of this Licence. Any changes must be notified to and be approved by the Licensing Authority in writing prior to any such agent, contractor, subcontractors or vehicles carrying out any Licensed Activities pursuant to or otherwise operating under this Licence.

3.11 Refuelling of Plant and Equipment

The Licence Holder must ensure that plant, vehicles and machinery are not refuelled on the foreshore or in the sea.

3.12 Equipment, Structures and Access

The Licence Holder must ensure that all equipment, temporary structures, access tracks, waste and/or debris associated with the Licensed Activities are removed on completion of the Licensed activities.

Safety

3.13 Removal of Deposited Material

If the Licensing Authority considers it necessary or advisable for the safety of navigation, the Licence Holder must remove any deposit specified by the Licensing Authority or Marine Enforcement Officers within one month of notice being given by the Licensing Authority, and shall not replace such material until the Licensing Authority has given its written approval.

Pollution control

3.14 Pollution Prevention

The Licence Holder must ensure that pollution prevention best practice is adhered to at all times. Any incidents must be reported to the Licensing Authority as soon as possible using the hotline number **0300 065 3000**.

3.15 Spillage of Pollutants

The Licence Holder must employ bunding, storage facilities and spill kits to contain and prevent the release of fuel, oils and chemicals associated with the plant, refuelling and

Licence Number: DML2162v1

construction equipment into the marine environment. Secondary containment must be used with a capacity of **no less than 110%** of the container's storage capacity

3.16 Prevention of Disposal of Man-made Debris

The Licence Holder must ensure that all reasonable precautions are taken to prevent the disposal of man-made debris to the marine environment. Such material must be removed immediately and be disposed of appropriately. If it is not possible to prevent manmade debris from entering the marine environment during the Licensed Activities, the Licensed Activities must cease immediately.

3.17 Cleanliness of Equipment

The Licence Holder must ensure that equipment, machinery and PPE are washed with freshwater and/or thoroughly airdried before deployment and before moving between locations.

Activity-specific Conditions

3.18 Sediment Sampling Plan

The Licence Holder must request a sediment sampling plan from the Licensing Authority by **16 July 2024**.

3.19 Implementation of Sediment Plan

The Licence Holder must ensure that the sampling is undertaken in accordance with the sampling plan described in condition 3.18 and is analysed at an NRW approved laboratory.

3.20 Submission of Results of Sediment Sampling

The Licence Holder must submit the written results of the sediment sampling undertaken pursuant to condition 3.19 for written approval by the Licensing Authority within two months of sampling taking place. This must include an outline of an assessment of alternative uses for the sediment that is to be disposed.

3.21 Approval for Continued Dredging Activity

The Licence Holder must ensure no dredging is carried out after the following dates without written approval from the Licensing Authority: **16 October 2024**

3.22 Pollution Control for Pumping Vessels

The Licence Holder must employ suitable pollution control measures when servicing pumping vessels. Spill kits must be available onshore and offshore and all personnel involved in dredging operations must be aware of the location of the kits and trained to use them.

3.23 Returns

Certified returns of quantities of substances or articles deposited under this Licence are required to be submitted by **31 January** and **31 July** each year. The returns must

Licence Number: DML2162v1

specify the full Licence number and amount deposited (tonnage) each calendar month at each authorised Deposit Area. Where no deposit is made in a given period a NIL return is required.

If this Licence expires during the course of the calendar year and is not superseded by a further Licence relating to the Licenced Activities, a certified return of quantities of substances or articles deposited under this Licence shall be submitted not later than 28 working days after the Licence End Date.

3.24 Inspection of Disposal Vessel

Subject to meeting any mandatory health and safety obligations, the Licence Holder must provide, at reasonable notice, access and, if necessary, appropriate transportation to the disposal vessel to facilitate any inspection that the Licensing Authority, or Marine Enforcement Officers consider may be necessary.

3.25 Record of Quantity of Deposited Material

The Licence Holder must keep a log detailing the time, date, location and quantity of material deposited at sea. This log must be available for inspection by appropriately authorised officers of the Licensing Authority and Marine Enforcement Officers.

3.26 Annual Quantity of Disposal

The Licence Holder must ensure that the annual disposal of material to Deposit site IS014 does not exceed 5000m³.

3.27 Distribution of Material

The Licence Holder must ensure that during the course of disposal, material is distributed evenly over Deposit site IS014.

3.28 Log of Operations

The Licence Holder must ensure that the Master or the Officer of the Watch of each vessel, as referred to condition 3.10 of this Licence, undertaking the deposit of any substances or articles specified in Table 1 of this Schedule, shall maintain a written log of operations recording the following information:

- the name of the vessel;
- the quantity and type of each substance or article loaded for deposit;
- the date and time of departure from the port or site at which the substances or articles are loaded for deposit in the sea and time of arrival (and date if different) at the Deposit Area on each occasion that it proceeds to and from such area;
- latitude and longitude position (in degrees and minutes and decimal of a minute to at least one decimal place) of the deposit within the Deposit Area.

Licence Number: DML2162v1

Activity-specific Conditions

3.29 Reporting of Artefacts

The Licence Holder must ensure that any artefacts accidentally recovered are retained and reported through the Marine Portable Antiquities Scheme.

4 INTERPRETATION
