

Application for an environmental permit:
Part B6.5 – Discharging treated domestic sewage
effluent of up to 15 cubic metres (15m³) a day into
ground or up to 20 cubic metres (20m³) a day to
surface water

1 About you	2 About this application
1a What type of applicant are you?	3 Your management system

and so on.

You must tell us, for example, the number of houses or a description such as a pub, café, restaurant, office

5a What type of premises does your sewage treatment facility serve?

5 About your discharge

Document reference

GITE PLAN B.6ARJ.

We cannot process your application without a plan. If you do not send a plan we will have to contact you before we can progress your application.

You must provide a plan for your sewage treatment facility as part of your application. See the guidance notes on Part B6.5 for what should be included on the plan.

4 Your site plan (see guidance note to part B6.5)

meet our requirements.

Tick this box to confirm that you have read the application form guidance and that your management system will

You must have a written management system to make sure that your sewage treatment facility is maintained and run effectively. You can find guidance on management systems in our 'How to Comply' document. We have also developed environmental management toolkits for some business sectors which you can use to produce your own management system. You can get this by calling 0300 065 3000 or by downloading it from our guidance webpages.

3 Your management system (see guidance note to part B6.5)

Before 1 April 2010 (Existing)

When was it built? (DD/MM/YYYY)

2008.

On or after 1 April 2010 (New)

Use Table 1 below to help you work out the maximum discharge volume and answer in the box provided.

5d1 Discharges from a single domestic property.

If your discharge comes from multiple domestic properties, see the notes in section 5d2 and give us your answer in that section.

If your discharge comes from a single domestic property, use Table 1 below to work this out and answer section 5d1.

5d Tell us about the maximum volume of effluent you will discharge in a day (in cubic metres)?

Document reference

Tell us your justification in the box below or on a separate sheet if necessary and give us the reference for the extra sheet.

If you fail to send this information with your application, it may be returned to you without processing. The guidance notes on part B6 will help you understand what information you need to provide in answer to this question.

- send us their formal response regarding connection.
 - send us evidence that you have approached the sewerage undertaker, and
- Where you are proposing a discharge from a private sewage treatment system in an area where it appears reasonable to discharge your effluent into a sewer, you must, as a *minimum*:
- provide details of any physical obstacles; for example, roads, railways, rivers or canals.
 - show the extra cost of connecting to a sewer compared to the treatment you propose

Your justification must:

If any boundaries of the premises served by the sewage treatment facility are within 30 metres of a public or private sewer you must explain why you cannot discharge your effluent into a public or private sewer.

5c Tell us why you think you cannot discharge your effluent into a sewer.

You will need to check this with your sewerage undertaker (usually your local water company) and you may also need to check if it is possible to connect to a private sewer.

5b How far away is the nearest sewer (in metres)?

Single detached barn.
Kitchen, lounge, cloakroom + d/stairs toilet.
2 bedrooms and Bathroom.

1 cubic metre
(2 bed house. max 4 people).

National grid reference for the sample point (12 digit)

☐ Different to the outlet point

☐ Provide a grid reference

☐ Same as the outlet point

☐ Go to section 5g

Tell us where your outlet is:

If you are making a discharge to ground from a new system, or a discharge to a surface water, you must provide a sample point where a sample of your discharge can be safely taken before it has mixed with any other discharges such as rainwater run-off. You must also identify it on the plan required by section 4

system.

This does not apply if you are discharging to ground up to 5 cubic metres (5m³) a day from an existing

5f Sample point location

Other

☐ You must provide design details in the box below.

Septic tank

Standard BS 12566

☐ Package treatment plant that meets British
5e What type of sewage treatment system will you be using to treat your effluent?

Document reference

Tell us the maximum volume and how you worked it out. Answer in the boxes provided.

If you are discharging sewage from premises other than a single domestic property (for example, from a group of houses, a guest house or a very large house), the volume should be worked out using the industry code of practice known as 'Flows and Loads - 4', which is available from the British Water website. (To help you calculate this, we recommend you read the guidance notes on part B6.5 for more information.)

5d2 Discharges from a multiple domestic properties.

Table 1 – discharges from a single domestic property	
Number of bedrooms in your house	Daily volume (cubic metres per day)
1 to 3	1
4 to 6	1.5
7 to 8	2

5g Where will your treated effluent discharge to?
Mark in Table 2 below where this effluent discharges to and fill in the relevant section or appendix, and then complete section 6 onwards.

If you are sending in a paper version of this form you only need to print off and fill in one appendix to save on paper.

Table 1 – discharges from a single domestic property		
Receiving	Relevant sections/ Appendix	
River, stream, ditch or canal	<input type="checkbox"/>	Answer all of section 5h below.
Into land (drainage field)	<input checked="" type="checkbox"/>	Appendix 1
Tidal river, tidal stream, estuary or coastal waters	<input type="checkbox"/>	Appendix 2
Lake or pond	<input type="checkbox"/>	Appendix 3
Onto land (e.g. via reed bed or grass plot)	<input type="checkbox"/>	Appendix 4
Borehole or well or other deep structure	<input type="checkbox"/>	Appendix 5

5h Discharges to a river, stream, ditch or canal

If you are discharging to a river, stream, ditch or canal, you must answer all the questions below. If not, see Table 1 above for the relevant Appendix.

5h1 Give the National Grid Reference of the discharge point (for example, ST 12345 67890)

National grid reference for the discharge point (12 digit)

5h2 Give the name of the watercourse, canal or the main watercourse it is a tributary of if you know it

Watercourse name

5h3 Is the discharge into a

☐ River, stream or ditch

☐ Canal

5h4 Does the watercourse dry up for part of the year?

☐ Yes

☐ No

5h5 Does the discharge reach the watercourse or canal by flowing through a surface water sewer?

☐ Yes

☐ No

5h6 Give the National Grid Reference where the discharge enters the surface water sewer

National grid reference for the entrance point (12 digit)

6 More information from you

Are there any other factors we need to take into account as part of your application?

☒ No

☐ Please provide details

Document reference

7 Payment

7a Is the maximum volume of effluent you will discharge five cubic metres (5m³) or less a day?

The maximum volume is the figure you have given in section 5d.
Yes ☒ The reduced application fee applies and you do not have to pay an annual subsistence charge.
Now fill in question 7f.

No ☐ The standard application fee applies. Please note that there is an annual subsistence charge to cover the costs we incur in the ongoing regulation of the permit.

Now continue to fill in the questions in this section.

7b What date do you want the permit for this effluent to start?

Please note that this is the date that your annual subsistence charges will start, even if you have not started to discharge, unless you contact us to change (delay) the start date.

7c Is the discharge time limited?

No ☒

Yes ☐ Please give the date you expect the discharge to end by

Please note that your permit will not end on that date and you will still need to notify us to surrender the permit.

7d Will the discharge take place all year?

Yes ☒

No ☐ Please give details of the months when you will make the discharge

7e Will the discharge take place on more than six days in any year?

Yes ☒

No ☐

7f Who can we talk to about your billing or invoice?

Same as the application contact in 1h ☒

Same as the operation contact in 1i ☐

National security

You can tell the Secretary of State that you believe including information on a public register would not be in the interests of national security. You must enclose a letter with your application telling us that you have told the Welsh Ministers and you must still include the information in your application. We will not include the information in the public register unless the Welsh Ministers decide that it should be included.

You can find guidance on national security in 'Core Environmental Permitting Guidance' published by Defra.

You cannot apply for national security via this application.

10 Declaration

You must read this section before making the declaration and sending your form to us.

A relevant person should make the declaration.

You must be a relevant person or have the authority of a relevant person to sign this application on their behalf. An agent acting on behalf of an applicant is NOT a relevant person.

Each individual (or individual trustee) who is applying for their name to appear on the permit must complete this declaration. You can send a separate document with the relevant information if there are not enough spaces to sign, below.

Relevant people means each applicant, and in the case of a company, a director, manager, company secretary or any similar officer or employee listed on current appointments in Companies House. In the case of a Limited Liability Partnership (LLP), it includes any partner. If the permit holder is an organisation of individuals, each individual (or individual trustee) must complete the declaration.

To simplify and speed up the application process we recommend that the declaration is filled in by an officer of a company or one of the partners in a Limited Liability Partnership (LLP).

If you wish a manager, employee or consultant etc. to sign the declaration on behalf of a relevant person, we will need written confirmation from a relevant person; that is, an officer of the company, a partner in the LLP or the individual, confirming that the person has the authority to fill in the declaration.

If you are joint permit holders you should each fill in your own declaration. We have provided extra spaces for this below. Please send in a separate sheet with your application if you need more room for signatories.

Where the operator is the subject of any insolvency procedure, the declaration must be filled in by the official receiver/appointed insolvency practitioner.

10a Are you signing the form on behalf of a relevant person?

If you are *not* a relevant person, but want to sign the application on their behalf, you must include confirmation that you can do this.

☐ I have included written confirmation from a relevant person to confirm I can sign on their behalf.

10b Declaration

If you knowingly or recklessly make a statement which is false or misleading to help you get an environmental permit (for yourself or another person), you are committing an offence under the Environmental Permitting (England and Wales) Regulations 2016.

I declare that the information in this application is true to the best of my knowledge and belief. I understand that this application may be refused or approval withdrawn if I give false or incomplete information.

I understand that if I knowingly or recklessly make a false or misleading statement:

- I may be prosecuted; and

- if convicted, I may have to pay a fine and/or go to prison.

By signing below, you are confirming that you understand and agree with the declaration above.

Appendix 1 – Discharges into land (drainage field)

1 Give the national grid reference of the discharge point

SO 4678212064

2 Is your infiltration system new or existing?

SEPTIC TANK. ~~HOUSE~~ BARN converted residential use
2008. We purchased in 2014.

On or after 1 April 2010 (New) ☐

Before 1 April 2010 (Existing) ☒ When was it built?

2008

Answer questions 3–8 if you are able to, if not leave them blank and go to question 9.

3 Is your infiltration system designed and built to British Standard 6297:2007 + A1:2008?

Yes ☐

No ☐ Please provide details, on a separate sheet, of the design criteria used for your infiltration system

Document reference

4 On what date did you carry out a percolation test and dig a trial hole in line with British Standard 6297:2007 + A1:2008?

5 What is your percolation value (Vp) result (seconds per millimetre)?

You must show in the table below how you worked out the percolation value.

	Trial 1	Trial 2	Trial 3	Average
Hole 1				
Hole 2				
Hole 3				
Hole 4				

6 What is the surface area of your infiltration system (in square metres)?

7 If known, mark on the plan you have provided the extent of the infiltration system

8 Is any part of your infiltration system within 50 metres of a well, spring or borehole?

No ☐

Yes ☒ Identify the location of the well spring or borehole on the plan you have provided.

6

9 Is the well spring or borehole you have identified used to supply water?

No ☐

Yes ☒ You must describe what the water supplied is used for.

10 Is any part of your infiltration system within 10 metres of a watercourse?

No ☒ Yes ☐

Identify the location of the watercourse on the plan you have provided.

Bore hole used to supply water to property (just backways Barn) as
 main water not available. Installed on conversion to property 2008.
 we purchased property 2014. we have since had the water professionally
 tested + filtration tanks + UV installed.
