

# Natural Resources Wales permitting decisions

## Bespoke permit

We have decided to grant the permit for Arfyn operated by Network Service Facilities LTD.

The application number is PAN-002835

The permit number is EPR/AB3993CC

The permit regulates an existing discharge to ground of package treatment plant effluent; a maximum of 2.5 cubic metres per day, discharged via an infiltration system. The system serves four properties and has been in situ since 1960. The discharge is of domestic nature.

We consider in reaching that decision we have taken into account all relevant considerations and legal requirements and that the permit will ensure that the appropriate level of environmental protection is provided.

## Purpose of this document

This decision document:

- explains how the application has been determined
- provides a record of the decision-making process
- shows how all relevant factors have been taken into account
- justifies the specific conditions in the permit other than those in our generic permit template.

Unless the decision document specifies otherwise we have accepted the applicant's proposals.

## Structure of this document

- Annex 1 the decision checklist

## Annex 1: decision checklist

This checklist should be read in conjunction with the Duly Making checklist.

Aspect	Justification / Detail	Criteria met
		Yes
<b>Consultation</b>		
Scope of consultation	The consultation requirements were identified and implemented. The decision was taken in accordance with RGN 6 High Profile Sites, our Public Participation Statement and our Working Together Agreements.	✓
Responses to web publicising	The web publicising responses were taken into account in the decision.  There were no responses to the web publication.	✓
<b>Operator</b>		
Control of the facility	We are satisfied that the applicant (now the operator) is the person who will have control over the operation of the facility after the grant of the permit. The decision was taken in accordance with EPR RGN 1 Understanding the meaning of operator.	✓
<b>European Directives</b>		
Applicable directives	All applicable European directives have been considered in the determination of the application.	✓
<b>The site</b>		
Extent of the site of the facility	The operator has provided a plan which we consider is satisfactory, showing the extent of the site of the facility including discharge points.  A plan is included in the permit and the operator is required to carry on the permitted activities within the site boundary.	✓
<b>Environmental Risk Assessment and operating techniques</b>		
Environmental risk	We have carried out a risk assessment on behalf of the operator.  The operator considers this risk assessment is satisfactory.  The operator considers this risk assessment is unsatisfactory and required additional Natural Resources Wales assessment.  The assessment shows that, applying the conservative criteria in our guidance on Environmental Risk	✓

Aspect	Justification / Detail	Criteria met
		Yes
	Assessment [or similar methodology supplied by the operator and reviewed by ourselves], all emissions may be categorised as environmentally insignificant.	
Operating techniques	<p>We have reviewed the techniques used by the operator and compared these with the relevant guidance notes.</p> <p>The proposed techniques / emission levels for priorities for control are in line with the benchmark levels contained in the TGN and we consider them to represent appropriate techniques for the facility.</p> <p>As required in TGN 7.01.</p>	✓
<b>The permit conditions</b>		
Considerations of foul sewer	<p>We agree with the operators justification for not connecting to foul sewer.</p> <p>The discharge has existed since 1960 and therefore we do not require the applicant to explore the option of connection to the foul sewer.</p>	✓
<b>Operator Competence</b>		
Environment Management System	There is no known reason to consider that the operator will not have the management systems to enable it to comply with the permit conditions. The decision was taken in accordance with RGN 5 on Operator Competence.	✓
<b>Sustainable Management of Natural Resources (SMNR)</b>		
Considerations of SMNR - Compliance with our General Purpose	We are satisfied that this decision is compatible with our general purpose of pursuing the sustainable management of natural resources in relation to Wales and applying the principles of sustainable management of natural resources”	✓
