

Mr Roger Newman
RPS Group
Platform
New Station Street
Leeds
LS1 4JB

Our ref: PAN-021584

Date: 13 June 2023

Dear Mr Newman

Application reference: PAN-021584

Operator: Industrie Cartarie Tronchetti UK Limited

Facility: Deeside Paper Mill

E-mailed to Roger.newman@rpsgroup.com

Thank you for your application on 31 March 2023.

Unfortunately, we need more information from you on the application before we can continue working on it. The information we require is requested below:

Air Quality Modelling Report

1. Please clarify which air quality modelling file is being submitted with the application as two have been provided in appendix E entitled 'ICT Air quality Modelling report 030423' & 'ICT Air Quality Modelling report 270223'
2. Submit the Air Quality modelling files in support of the air quality modelling report as clarified in the above.
3. Acidity deposition or in-combination has not been considered in the air quality modelling report or supporting information as part of the screening for protected areas.
4. The screening distances for sensitive ecological receptors differs in the air quality modelling compared to that in the application supporting document. Please clarify what screening distances for the sensitive receptors you are working to. It is considered that 10Km would be acceptable in this instance as an increased screening distance of 15KM is used for:

- Natural gas (or fuels with a similarly low sulphur content) fired combustion plants, with more than 500 MWth input;
- Larger combustion plants using more sulphurous fuels with more than 50MWth input.

Noise Impact Assessment

5. Submit the model input files used within the SoundPLAN® model as referenced within your Noise Impact Assessment 21 March 2023.

Site Boundary and Emission Point Plan

6. Please provide a site boundary and emission plan with the exclusion of the proposed phase 3 development. The current submission with the marked hashed area in pink over the emission points and future proposed development cannot be incorporated within the environmental permit.

Water Discharge Assessment

7. Please clarify application supporting document section process water discharge; 4.3.1 refers to Appendix B should this read Appendix F.

Environmental Risk Assessment Report

8. Please clarify under Process Water Discharge refers to calculation and assessment can be found in Appendix B however there is only an appendices C1 to the report. Is this located within Appendix F as 'Appendix B Site Proxy Data'

Containment

9. Further information concerning secondary and tertiary containment is needed particularly around the wastewater treatment plant (please refer to the risk assessments CIRIA guidance C736). It is also not clear if there will be shut off valves on any potential discharge points to the Dee Estuary in the event of an accident or incident within the risk assessment Appendix C.

Please reply within 10 working days from the date of this letter:

If you need advice about completing this request, please contact your local area office. Call 0300 065 3000 and ask to speak to your local area office or your site officer.

If you email or write to us, please quote the application reference PAN-021584 on any correspondence and send it to the relevant address below.

When we receive the missing items we'll continue to check the details in your application. If there's enough information for us to begin the process of deciding whether or not we can grant your application we say the application is 'duly made' and we'll let you know this by letter. If we need further information before we can say it's duly made we'll let you know what is required.

Yours sincerely

Karen Dunn
