

-  Gravity Sewer
-  Rising Main
-  Outfall
-  Pumping Station
-  Lamphole
-  Combined Sewer Overflow
-  Special Purpose Chamber
-  Treatment Works
-  Private Sewer Transfer
-  Lateral Drain
-  Inspection Chamber

NB:Sewer symbol colour indicates the sewer type.
RED - Combined
GREEN - Surface Water
BROWN - Foul

Whilst every reasonable effort has been taken to correctly record the pipe material of DCWW assets, there is a possibility that in some cases pipe material (other than Asbestos Cement or Pitch Fibre) may be found to be asbestos cement (AC) or Pitch Fibre (PF). It is therefore advisable that the possible presence of AC or PF pipes be anticipated and considered as part of any risk assessment prior to excavation.

Dair Cymra Cyfyngedig (The company) gives this information as to the position of the underground apparatus by way of general guidance only and on the strict understanding that it is based on the best information available and no warranty as to its correctness is relied upon in the event of excavations or other works made in the vicinity of the company's apparatus. The onus of locating apparatus before carrying out any excavations rests entirely on you. The information which is supplied to you is of a general nature and is not intended to be a guide to the position of the apparatus. The information for 1991 is based upon the best information available and, in particular, but without prejudice to the generality of the foregoing, it should be noted that the records that are available to the Company may not disclose the existence of a water main, gas pipe, sewer, cable, or other underground apparatus. If you are in any doubt as to the position of the apparatus, then you do, the particulars thereof including their position underground may not be accurate. It must be understood that the furnishing of this information is entirely without prejudice to the provision of the New Roads and Street Works Act 1991 and

Service pines are not generally shown but their presence should be anticipated
