A detailed explanation is captured in "Compliance Assessment Report Detail" (Section 2) and any actions you may need to take are given in the "Action(s)" (section 4). This summary details where we believe any non-compliance with the permit has occurred, the relevant condition and how the non-compliance has been categorised using our Compliance Classification Scheme (CCS). CCS Scores can be consolidated or suspended where appropriate, to reflect the impact of some non-compliances more accurately. For more details of our CCS scheme, contact your local office.

DUPLICATE OF CAR FORM ALREADY SENT TO OPERATOR FOR REPORTING PURPOSES.

I met with Glen and Rob Soper on site. Glen has just finished his wamitab training and had a print out of the sign off sheet from his assessor. The certificate is to follow. Please scan and e-mail this to me as soon as you get it. Rob has nearly finished his and will do the same.

I looked at some consignment notes and raised the issue of a 16?? 99 EWC code. The site can only accept 17 06 01 and 17 06 05. Please ensure these are the only EWC codes used. The SIC code has also been changed to the correct one.

Premise registration is up to date and valid until 11/01.17. The new premise code is CAF765.

I enquired about the cesspit that had previously been highlighted with having problems. Another survey has been carried out and the integrity was found to be satisfactory.
