Dear Tom Brinicombe

## **MARINE AND COASTAL ACCESS ACT 2009: PART 4 – MARINE LICENSING**

**LICENCE FOR MaresConnect Ltd to carry out Seabed Surveys**

**LICENCE NUMBER: CML2331**

I am writing to advise you that the Marine Licensing Team, on behalf of the Welsh Ministers, as Licensing Authority, has considered your application, duly made 23 June for a Marine Licence under Part 4 of the Marine and Coastal Access Act 2009, and hereby grant a Marine Licence for you to undertake the above stated works.

Accordingly, please find attached for your review and retention a copy of Marine Licence **CML2331** and its conditions.

### **Advisory Note**

Marine Licence, **CML2331**, constitutes a statutory consent; therefore, the conditions set out herein must be complied with in full and will be binding upon any agent or contractor who undertakes any activity on the project on your behalf.

You are urged to read the conditions of Marine Licence **CML2331** carefully, in particular the need to advise Welsh Government Marine Enforcement Officers of the commencement of works within **10 days** prior to work starting.

Marine Licence, **CML2331** is solely granted for the work to be undertaken in North Wales; however, it does not absolve you from applying for further consents or licences as necessary to enable the full completion of your project.

If the works authorised by this Licence are unlikely to be completed by the expiry date, the Licence Holder should apply for a replacement marine licence **at least 4 months** prior to the expiry date of this Licence.

Should you require clarification as to the reasons for the inclusion of any of the conditions attached to the Licence then you must request written notice within **28 days** of the receipt of this letter.

The Crown Estate is affected by the proposed works and landowner's consent is required. The Crown Estate has been made aware that a Seabed Survey Licence application will be sent to [Consents@thecrownestate.co.uk](mailto:Consents@thecrownestate.co.uk) **3 months** before the seabed intrusive surveys

are due to commence. Provided landowner's consents for the proposed activity is granted, The Crown Estate has no objection to this Marine Licence Application.

The Clwyd-Powys Archaeological Trust have raised concerns that there has been no pre-application consultation with them from either MaresConnect or their Intertek consultants regarding the intended onshore cable route to a Bodelwyddan substation. They understand that directional drilling will be used in combination with opencut trenching or drilled techniques in existing road corridors. While this methodology may not present any great impacts there is also some mention of the cable route crossing open terrain, which could have a significantly higher impact on archaeology. It is strongly encouraged that they are consulted prior to the submission of the cable installation application.
