Hi Oscar,

Thanks again for your below email. Please can I check if the below GIS proximity check has now been completed and if the SSL can now be issued?

Many thanks,

Richard

Report Suspicious

Good afternoon Jackie,

Thank you for informing us of the amendments to the survey and for sending the new shapefiles.

This will require a new GIS proximity check to be run as there are spatial changes. Typically our GIS checks take around 5 days to complete. Once this is returned we should be close to being able to issue your SSL.

Kind regards,
Oscar

Subject: Seabed Survey License FLOW_LLYR_02

Dear Claire

Further to our recent application for a Seabed Survey Licence (application submitted on the 31st August by Richard Gibbs ... I have attached a copy of the email) I write to advise you of a change to the survey area and a minor alteration in survey approach.

For the revised survey area I have attached two new shapefiles (which should be considered together) and figures ... these would replace the shapefile submitted with our August submission.

As stated in our application, the ROV survey (which will periodically touch the seabed) will be taking place prior to the main geophysical/geotechnical/environmental survey.

We now anticipate the 12-month SSL start date can be shifted to a start date of the 1st October 2023.

My apologies for any inconvenience regarding these changes. Please let me know if you need any further information or explanation on the above.

Kind regards

Jackie

Hello Jay,

Please see attached the following:

- Credit notes which relate to the invoices with the incorrect details on
- PLUS_LLYR_01 invoice 1528788
- PLUS_LLYR_02 invoice 1528789

The Remittance Address is correct we do not have 'The Crown Estate Commissioners' on our invoices.

Kind regards

Claire

Hello again Claire,

Please can I check you received the email below and that TCE is able to amend the invoices? If helpful I'm happy to arrange a call with the relevant people to go through things.

Thanks,
Jay
