

Compliance Assessment Report CAR_NRW0042630

Permit being assessed: BB3793ND.

For: Nevills Dock, held by AMG Resources Ltd.

At: A M G Resources Ltd, Nevills Dock, Llanelli, Carmarthenshire, SA15 2HD.

Type of assessment carried out: Site Inspection, Reason: Other.

On 11/10/2023 between 12:15 and 13:30.

Parts of permit assessed: A

NRW Lead Officer: David Morgan.

Report sent to: Adrian Stewart, Technical Competent Manager on 16/10/2023.

1. Summary of our findings (full details in section 4)

Part of permitted activity assessed (criteria)	Assessment result	Permit condition
A1 - Specified by permit	Assessed (A)	

Result types are explained in more detail in the 'Important Information' section below.

Total number of non-compliances recorded	Total non-compliance score
0	0

How we use the non-compliance score to calculate your annual fee is explained in the 'Important Information' section below.

2. What action is required?

No action required.

3. What will happen next?

Any non-compliance we have identified and recorded on this form is an offence. It can result in criminal prosecution and/or suspension or revocation of your permit.

You are non-compliant with your permit.

We are currently considering taking enforcement action against you for the non-compliance recorded above. We will contact you in due course.

4. Details of our assessment

A site inspection was undertaken on Wednesday 11th October 2023. The purpose of the inspection was to assess compliance on site, specifically in relation to the Regulation 37 Suspension Notice that was in place at the time of the inspection.

Present at the time of the inspection were: David Morgan (Natural Resources Wales), Robert Williams (Carmarthenshire County Council), Adrian Stewart (AMG Resources) and

Jonathan Hapgood (South Wales Pest Experts, on behalf of AMG Resources).

A review of on-site waste storage practices was undertaken and the following observations were made:

Waste Storage & Pest Management

On arriving at site, it was noted that a substantial amount of waste had been removed from site. The concrete A-frame walled bay, where the residual waste is usually stored, was empty and had been thoroughly cleaned. The individual A-frames had been cleared from all historical waste and litter.

Generally, it appeared that housekeeping had been improved all over the site with efforts having been made to reduce the volume of windblown litter around the site. There was no fly activity in this area as all waste had been removed.

Fly Monitoring & Pest Management Plan

All fly capture bags had been removed and monitoring sheets on all of the boards were showing little or no signs of fly activity. Most monitoring boards, which had been replaced two days previously, had no flies on.

Fly capture bags were dated (installed 9th October) and most bags contained very few, if any, flies.

Regulation 37 Notice

It was noted that large volumes waste had left site since the issue of the Regulation 37 Notice that suspended certain waste types from being accepted on site.

Two piles of waste remained, a small pile of residual waste and some steel cans. Both piles, although reduced in volume in recent days, still has flies present. Although flies were still present on site, the volume of flies had decreased to far lower levels than previously witnessed. It was suggested by AMG Resources that both piles had been sprayed earlier that morning.

Following the inspection, Natural Resources Wales confirmed with a nearby sensitive receptor (that previously had high levels of flies present) that flies were still present, but were at far lower levels than in the previous weeks.

As flies were still present at the receptor, and flies were still present on site, it was agreed that the Regulation 37 Notice remain in place until evidence could be provided to Natural Resources Wales that the remaining waste on site had been removed.

*****Update - 12/10/2023*****

Following receipt of photographs and Duty of Care Waste Transfer Notes, which now evidenced the final removal of waste that had flies present, Natural Resources Wales withdrew the Regulation 37 Notice that was in place.

Summary

Large volumes of waste had been removed since the previous visit on 9th October when the Regulation 37 Suspension Notice was issued.

Waste storage areas had been cleared and thoroughly cleaned. Two remaining piles of waste had flies present, but at far lower levels than previously. In discussions with a nearby receptor, that had been impacted by high levels of flies, it was confirmed that at the time of the inspection on 11th October 2023, levels of flies had reduced.

After the inspection, AMG Resources provided evidence that the last remaining waste had been treated and removed from site and Natural Resources Wales withdrew the Regulation 37 Notice on Thursday 12th October 2023.

END OF REPORT

Any compliance criteria not highlighted in the above summary should be considered as not assessed. In this document 'Natural Resources Wales' means the Natural Resources Body for Wales established by Article 3 of the Natural Resource Body for Wales (Establishment) Order 2012. You should note that the Natural Resources Body for Wales has been formed by bringing together the Countryside Council for Wales, Forestry Commission Wales and Environment Agency Wales. The Natural Resources Body for Wales has been empowered to exercise Welsh devolved functions since 1st April 2013 and has, generally, taken over the responsibilities of the Countryside Council for Wales, the Forestry Commissioners and the Environment Agency for Wales.

If you have any queries about this report, or to discuss completion of any actions, please contact the NRW Officer named above.

Important information

Legal status of this report

Your permit is issued to you under the Environmental Permitting Regulations. You have a responsibility to comply with the conditions of your permit and prevent pollution/harm of the environment. You must also ensure that you comply with any other relevant legislation that may apply to your site's operations.

This report explains the findings of our assessment and any action you are required to take. We categorise non-compliance using our guidance for assessing non-compliance at regulated sites.

When we find potential non-compliance/s we will normally give you advice on how to maintain compliance.

To correct non-compliance, we may:

- require you to take specific actions
- issue a notice
- review the conditions of your permit.

Any advice and guidance we give will be without prejudice to any other enforcement response that we consider may be required.

Assessment results and non-compliance categories (used in section 1):

Assessment result	Description
Assessed (A)	Assessed or assessed in part, no evidence of non-compliance found
Action only (X)	Action only relating to the activity assessment
Ongoing (O)	Ongoing non-compliance, not scored

Non-compliance category	Description	Score
C1 Major	Potential to have a major, serious, persistent and/or extensive impact or effect on the environment, people and/or property	60
C2 Significant	Potential to have a significant impact or effect on the environment, people and/or property	31
C3 Minor	Potential to have a minor or minimal impact or effect on the environment, people and/or property	4
C4 No environmental impact	Non-compliance at a regulated site that cannot foreseeably have any impact on the environment, people and/or property	0.1

How we use assessment scores

The number and severity of non-compliances recorded in a year will affect your annual subsistence fee the following year. A non-compliance factor is added to your site's Operator

Performance Risk Appraisal (OPRA) score when we calculate your fee to reflect the additional resource we use to assess permit compliance.

What are suspended scores?

In line with our guidance, we may suspend scores for up to six months to allow time for remedial action to be taken. Suspended scores will be re-instated if the action is not completed.

Full list of Industry and Waste action criteria (used in section 1 and 2):**A: Permitted activities**

- A1 Specified by permit

B: Infrastructure

- B1 Infrastructure – Engineering for prevention and control of emissions
- B2 Infrastructure – Closure and decommissioning
- B3 Infrastructure – Site drainage engineering (clean and foul)
- B4 Infrastructure – Containment of stored materials
- B5 Infrastructure – Plant and equipment

C: General management

- C1 General management – Staff competency/training
- C2 General management – Management system and operating procedures
- C3 General management – Materials acceptance
- C4 General management – Storage, handling, labelling and segregation

D: Incident management

- D1 Incident management – Site security
- D2 Incident management – Accidents, emergency and incident planning

E: Emissions

- E1 Emissions – Air
- E2 Emissions – Land and groundwater
- E3 Emissions – Surface water
- E4 Emissions – Sewer
- E5 Emissions – Waste

F: Amenity

- F1 Amenity – Odour
- F2 Amenity – Noise
- F3 Amenity – Dust/fibres/particulates and litter
- F4 Amenity – Pests/birds and scavengers
- F5 Amenity – Deposits on road

G: Monitoring and records, maintenance and reporting

- G1 Monitoring and records, maintenance and reporting – Monitoring of emissions and environment
- G2 Monitoring and records, maintenance and reporting – Records of activity, site diary/journal/events
- G3 Monitoring and records, maintenance and reporting – Maintenance records
- G4 Monitoring and records, maintenance and reporting – Reporting and notification to Natural Resources Wales

H: Resources efficiency

- H1 Resource efficiency – Efficient use of raw materials
- H2 Resource efficiency – Energy efficiency

Enforcement response

Any permit condition non-compliance is an offence and we may take legal action against you. Action we take can include prosecution, serving a notice on you and/or suspension or revocation of your permit. See our Enforcement and Sanctions Guidance for further information.

Data protection notice

You should make sure that anyone named in this report knows that the information it contains will be processed by Natural Resources Wales to fulfil its regulatory and monitoring functions and to maintain the relevant public register(s).

We may also use and/or disclose the report in connection with:

- offering or providing you with our literature or services relating to environmental matters
- consulting with the public, public bodies and other organisations (e.g. Health and Safety Executive, local authorities) on environmental issues
- carrying out statistical analysis, research and development on environmental issues
- providing public register information to enquirers
- investigating possible breaches of environmental law
- assessing customer service satisfaction and improving our service
- Freedom of Information Act or Environmental Information Regulations requests.

We may also pass it on to our agents or representatives to do these things on our behalf.

Disclosure of information – this report will be available to view on-line

If you think this report contains commercially confidential information that should not be placed on our public register, you must contact your local Natural Resources Wales office within **fifteen working days** of receiving this report, using the contact details in the accompanying email or letter. You must give a full explanation of why it should not be added to our public register, including specifying which information is commercially confidential. We will assess your request and respond to you within 20 working days to let you know if we agree to your request.

What do I do if I disagree with the report or have a complaint?

If you disagree with this compliance assessment report, you should contact the lead officer without delay to discuss your concerns.

If you are unable to resolve the issue with the lead officer or their line manager you should contact our Customer Contact team on 0300 065 3000 (Monday to Friday 08:00 – 18:00), or email enquiries@naturalresourceswales.gov.uk for details of how to raise your dispute further through our Complaints and Commendations procedure.

If you are dissatisfied with our response, you can contact the Public Services Ombudsman for Wales by phone on 0300 7900203 or by email at ask@ombudsman.wales

Welsh Language Standards

We are committed to establishing Natural Resources Wales as a naturally bilingual organisation. We will provide compliance reports in your preferred language.
