Introductory note

This introductory note does not form a part of the notice.

This permit has been varied to make changes to compliance limits, reduction in the number of groundwater monitoring locations and reduction in frequency of monitoring requirements as part of the site's closure plan. This variation also consolidates area 2 of the landfill, previously regulated by permit EPR/PP3294FJ into this permit.

The schedules specify the changes made to the permit.

The status log of a permit sets out the permitting history, including any changes to the permit reference number.
