

Environmental permit: Part LPD1 - application for a new waste deployment

About the permit

If you have had discussions with us before your application, give us the case reference or details

PAN-0122122 Fron Farm - deployment application submitted in May '23 was rejected, at least in part, due to erroneous information held by Rural Payments Wales regarding the occupier. This should now have been corrected by RPW. Also, I understand NRW have decided to calculate phosphate loadings on totals rather than available levels, whatever the level of phosphate in the soil, but as far as I'm aware this information is not available in the guidance and reduces the amount of waste recycled if recommended levels in RB209 was followed. Please advise. The application was not scrutinised during the time allowed in the service level agreement which led to the decision to reject falling after the charge period ending 30 June '23. Subsequent to this, prices were increased from £798 to £1,561. Consideration of a reduction in the resubmission fee is requested.
