

Notification

These pages outline the information that the operator must provide.

Units of measurement used in information supplied under Part A and B requirements shall be appropriate to the circumstances of the emission. Where appropriate, a comparison should be made of actual emissions and authorised emission limits.

If any information is considered commercially confidential, it should be separated from non-confidential information, supplied on a separate sheet and accompanied by an application for commercial confidentiality under the provisions of the EP Regulations.

Part B — to be submitted as soon as practicable

Any more accurate information on the matters for notification under Part A.	No further updates
Measures taken, or intended to be taken, to prevent a recurrence of the incident	Engineering PPM schedules and checks being reviewed. Site will be reviewing the potential to change from odour abatement plants to another process
