(EPR/AB3697CN/V003)  
Your ref: EPR/AB3697CN**

**Date: 11/12/2023**

Dear Mr Sandrof

**We need more information about your application**

**Application reference: PAN-023318 (EPR/AB3697CN/V003)  
Operator: Radnor Hills Mineral Water Company Limited  
Facility: Radnor Hills, Heartsease, Knighton, Powys, LD7 1LU**

Thank you for your application received on 20/09/2023.

Unfortunately the fee you sent is incorrect and the fee is missing. In line with our charging scheme ([Contents \(naturalresources.wales\)](#) page 57) the fee to add a new MCP to an installation would be the same as applying for an equivalent, standalone MCP. In this case as you have done air quality modeling this would fall under complex bespoke and a fee of £9,687. Please pay £9,687 (or if you have paid the £2,576 for this application then the difference of £7,111) made payable to 'Natural Resources Wales' or contact permit receipt ([permitreceiptcentre@cyfoethnaturiolcymru.gov.uk](mailto:permitreceiptcentre@cyfoethnaturiolcymru.gov.uk)) to arrange to pay by credit/debit card.

I need to ask you for some more information before I can do any more work on it. Please would you

- Provide us with more information to question Form C3 appendix 8. We need to know;
  - The unique identifier for the new MCP. The MCP must be traceable via a serial number or other unique identifier, name plate, manufacturer and/or model.
  - For average load in use you put unknown. Do you have a estimate of what the load might be?
  - Confirm if the NACE code is **C11.0.7** - Manufacture of soft drinks; production of mineral waters and other bottled waters (you have stated 11.07)

Croesewir gohebiaeth yn y Gymraeg a'r Saesneg  
Correspondence welcomed in Welsh and English

- Provide us with more information on the following aspects of the air quality modeling /report;
  - Details why moisture content were not included for MCPs A1, A5 and A6.
  - Information of any surface characteristics used in the modeling.
  - Sensitivity analysis (as outlined in the guidance : [Environmental permitting: air dispersion modelling reports - GOV.UK \(www.gov.uk\)](https://www.gov.uk/guidance/environmental-permitting-air-dispersion-modelling-reports)).
  - Provide a copy of the modeling files.
- The non technical summary and Form C2 mention that the boiler (emission point A5) had changed from a oil-fired boiler to a LPG-fired boiler. Provide us with more information on;
  - Confirmation if the boiler (associated with A5) is a new boiler or an older boiler converted for using LPG.
  - When was the (new) boiler was commissioned/brought online.
  - If the boiler for A5 is new (commissioned after 20<sup>th</sup> December 2018) please provide the information in appendix 8 of form C3 for the boiler A5.
  - Confirmation if the air quality assessment and modeling submitted was done on assumption that A5 using LPG fuel.

If you need advice about how to complete the form, or work out what your fee is, please contact your local area office. Call 0300 065 3000 and ask to speak to your local area office or your site officer.

Please reply within 10 working days from the date of this letter. If we don't hear from you we must return your application.

If you email or write to us please quote the application reference PAN-023318 (EPR/AB3092CV/V003) on any correspondence and send it to the relevant address below.

When we receive the missing items we'll continue to check the details in your application. If there's enough there for us to begin the process of deciding whether or not we can grant your application we say the application is 'duly made' and we'll let you know this by letter.

Please quote our reference if you contact us. If you have any questions please phone me on 0300 065 4448 or email [William.Wallace@naturalresourceswales.gov.uk](mailto:William.Wallace@naturalresourceswales.gov.uk).

Yours sincerely

William Wallace  
Senior Officer, Installations and RSR Permitting.
