

## 1.0 STANDARD NOTES

- 
- The image contains two detailed cross-sectional drawings of filter strip structures, labeled 'NORTHERN AND ROAD FILTER STRIP DETAIL' and 'SOUTHERN FILTER STRIP DETAIL'. Both drawings are at a scale of 1:50 and include a north arrow pointing to the right.
- NORTHERN AND ROAD FILTER STRIP DETAIL:** This drawing shows a cross-section of a filter strip. Key components include a 25mm chamfer on the top wall, a 150mm (1/2 x 250mm (W)) reinforced concrete wall with cast-in 225mm T-section pipes, a 25mm THK road slab, and a 25mm THK yard slab. A 225mm T-section is connected to a 225mm perforated pipe laying on top of the filter strip. The filter strip is supported by an upright kerb HEB with concrete bed and backing with ST1 haunching. A 150mm freeboard is shown. A 375mm perforated pipe with perforations at the top is connected to a 1No. 375mm pipe at the end of the filter strip, which is connected to a pumping station. The drawing is labeled 'SEE ROAD FILTER MEDIUM DETAIL FOR SPECIFICATION' and 'FALL'.
- SOUTHERN FILTER STRIP DETAIL:** This drawing shows a cross-section of a filter strip. Key components include a 25mm chamfer on the top wall, a 150mm (1/2 x 250mm (W)) reinforced concrete wall with cast-in 200mm T-section pipes, a 25mm THK road slab, and a 25mm THK yard slab. A 200mm T-section is connected to a 200mm perforated pipe laying on top of the filter strip. The filter strip is supported by an upright kerb HEB with concrete bed and backing with ST1 haunching. A 375mm perforated pipe with perforations at the top is connected to a 1No. 375mm pipe at the end of the filter strip, which is connected to a pumping station. The drawing is labeled 'SEE SOUTHERN FILTER MEDIUM DETAIL FOR SPECIFICATION' and 'FALL'.
