Hi Lisa,

Thanks for coming back to me.

Yes, we'd like to proceed with the application please and I'll expect their call for payment.

Thanks, Phil.

Apologies Phil for a late response.

Firstly thank you for all of the information you are finding out in the quest for getting this signed off I have checked the application process with NRW, which appears to be the only way to commence a formal conversation with them. There is nothing in this application which specifically requests proof of the items below so I still believe that we should submit the application for discharge to the watercourse as it stands and then answer the questions as they respond to prevent you spending additional design fees now.
