1. Are you generally supportive of the Proposals for an Asphalt Plant?

Yes

☒ No

Undecided

2. Do you think this site is a good location for additional Industrial Development?

Yes

☒ No

Undecided

3. Do you have any specific comments or suggestions that you would like to see incorporated into the design of the Plant?

I am opposed to any further developments on the Celsa Site, which is a source of dust pollution for the surrounding area.

With other residents we have been negotiating about this matter for the last 18 mths, to no avail. We have no faith in the proposed remedial works (namely to eliminate ground dust by spraying & road works) because we believe the problem emanates mainly from the vents.

There is so much dust
I Don't Believe going to ^{get} better
