

Compliance Assessment Report CAR_NRW0042804

Permit being assessed: BH0055701

For: Newgale Sewage Treatment Works, held by DWR CYMRU CYFYNGEDIG

At: Wood Village, Newgale, Haverfordwest, Pembrokeshire, SA62 6AR.

Type of assessment carried out: Report/Data Review, Reason: Other.

On 15/11/2023.

Parts of permit assessed: Monitoring and Reporting Conditions

NRW Lead Officer: Rod Thomas.

Report sent to: CARS@dwrcymru.com, CARS mailbox, on 19/12/2023.

1. Summary of our findings (full details in section 4)

Part of permitted activity assessed (criteria)	Assessment result	Permit condition
WQ-C1 - Emissions and monitoring - Emissions to water	Assessed (A)	

Result types are explained in more detail in the 'Important Information' section below.

2. What action is required?

No action required.

3. What will happen next?

Any non-compliance we have identified and recorded on this form is an offence. It can result in criminal prosecution and/or suspension or revocation of your permit.

At this time, we do not intend to take any further action.

This statement does not stop us from taking additional enforcement action if further relevant information comes to light or offences continue.

4. Details of our assessment

Regarding table S3.5

Newgale has an applied dose UV treatment plant and so does not require transmittance for dosing.

This permit has historically required transmittance on the efficacy data, but there is no onsite meter and data has not been supplied. A letter sent by the EA in 2006 stopped the requirement. The re-issued permit in 2023 did not remove the requirement and after meeting with DCWW on the 13/11/2023, there is still no requirement for transmittance in the running of the UV plant. DCWW will request a permit admin variation to remove this condition. In the meantime, we will not require transmittance data to be supplied for this site.

Important information

Legal status of this report

Your permit is issued to you under the Environmental Permitting Regulations. You have a responsibility to comply with the conditions of your permit and prevent pollution/harm to the environment. You must also ensure that you comply with any other relevant legislation that may apply to your site's operations.

This report explains the findings of our assessment and any action you are required to take. We categorise non-compliance using our guidance for assessing non-compliance at regulated sites.

When we find potential non-compliance/s we will normally give you advice on how to maintain compliance.

To correct non-compliance, we may:

- require you to take specific actions
- issue a notice
- review the conditions of your permit.

Any advice and guidance we give will be without prejudice to any other enforcement response that we consider may be required.

Assessment results and non-compliance categories (used in section 1):

Assessment result	Description
Assessed (A)	Assessed or assessed in part, no evidence of non-compliance found
Action only (X)	Action only relating to the activity assessment
Ongoing (O)	Ongoing non-compliance, not scored

Non-compliance category	Description
C1 Major	Potential to have a major, serious, persistent and/or extensive impact or effect on the environment, people and/or property
C2 Significant	Potential to have a significant impact or effect on the environment, people and/or property
C3 Minor	Potential to have a minor or minimal impact or effect on the environment, people and/or property
C4 No environmental impact	Non-compliance at a regulated site that cannot foreseeably have any impact on the environment, people and/or property

If your assessment result in Section 1 is suspended, what does this mean?

In line with our guidance, we may suspend non-compliance for up to six months to allow time for remedial action to be taken. These will be re-instated if the action is not completed.
