4. Details of our assessment

This Compliance Assessment Report (CAR) follows an unannounced site inspection at Newbridge Energy Ltd which was carried out to assess the works carried out in response to Action 1 '*Extend the length of the roof coverings on the fuel storage bays to ensure all CHP fuel is stored undercover. Provide NRW with photographic evidence that this has been completed. Due 03/11/23.*' (CAR sent 11/09/23).

The operator sent Natural Resources Wales (NRW) photographs of the new roof coverings on 24/10/23.

Immediately before attending site, NRW staff carried out offsite observations in the vicinity of the Glasdir housing estate and the nearby Aldi car park. Both Combined Heat and Power (CHP) units were operational. Stack emissions were barely visible. No odours detected.

The Health, Safety and Environmental Compliance Manager was on Annual Leave at the time of the inspection so a Production Manager accompanied NRW staff during the inspection.

The new roof coverings for the fuel bays had been installed and these covered the entire length of the fuel bays. NRW considers Action 1 (CAR sent 11/09/23) to be complete.

Site operatives were in the process of mixing fuel during the inspection and there appeared to be adequate covered fuel storage.

The operator continues to carry out regular sampling to assess moisture content of the fuel in line with the Site Operating Procedures (SOPs).

Skips stored at the rear of the site containing waste ash were covered.

If you have any queries about this report, or to discuss completion of any actions, please contact the NRW Officer named above.

Important information

Legal status of this report

Your permit is issued to you under the Environmental Permitting Regulations. You have a responsibility to comply with the conditions of your permit and prevent pollution/harm of the environment. You must also ensure that you comply with any other relevant legislation that may apply to your site's operations.

This report explains the findings of our assessment and any action you are required to take. We categorise non-compliance using our guidance for assessing non-compliance at regulated sites.

When we find potential non-compliance/s we will normally give you advice on how to maintain compliance.

To correct non-compliance, we may:

- require you to take specific actions
- issue a notice
- review the conditions of your permit.

Any advice and guidance we give will be without prejudice to any other enforcement response that we consider may be required.

Assessment results and non-compliance categories (used in section 1):

Assessment result	Description
Assessed (A)	Assessed or assessed in part, no evidence of non-compliance found
Action only (X)	Action only relating to the activity assessment
Ongoing (O)	Ongoing non-compliance, not scored

Non-compliance category	Description
C1 Major	Potential to have a major, serious, persistent and/or extensive impact or effect on the environment, people and/or property
C2 Significant	Potential to have a significant impact or effect on the environment, people and/or property
C3 Minor	Potential to have a minor or minimal impact or effect on the environment, people and/or property
C4 No environmental impact	Non-compliance at a regulated site that cannot foreseeably have any impact on the environment, people and/or property
