4. Details of our assessment

Site Report

Routine site visit undertaken at Beic Parcio Wales to audit Permit AB3591CP on the 30/10/2023 by Environment Officers Sion-Rhys Evans, Emily Roe, Paul Latham and Ceri Malone. Weather conditions were cold and dry.

Permit number - AB3591CP

Permit name - Beic Parcio Wales

10:30 -

Sion Evans, accompanied by Emily Roe, Paul Latham and Ceri Malone, met with Beic Parcio Wales site operators. The site operators showed us records of their maintenance/inspection logs, all of which were in order.

The site operator was concerned that the slope leading to the discharge point was very slippery/difficult to access during the winter months, but stated that it was on NRW forestry land, so NRW would be responsible for improving accessibility to the discharge/sampling point. The site operator suggested that in future, any NRW officers taking a water quality sample from the discharge point could sign in at reception before taking the sample, so that Beic Parcio Wales were aware of the officers presence on site if an accident was to occur.

One of the site operators then accompanied us around site so that we could inspect the Package Treatment Plant (PTP) system and the discharge point/outfall location. The PTP system appeared to be in good working order. The discharge point was at the correct location and was accessible for sampling/monitoring purposes, though it was very slippery under foot as the site operators had previously mentioned.

Some evidence of sewage fungus was identified on apron of the outfall. Advice was given to appropriately clean the culvert pipe and to monitor the apron for future build up of sewage fungus.

No permit breaches were observed during the inspection.

11:45 -

Site visit complete. Officers left site.

Important information

Legal status of this report

Your permit is issued to you under the Environmental Permitting Regulations. You have a responsibility to comply with the conditions of your permit and prevent pollution/harm to the environment. You must also ensure that you comply with any other relevant legislation that may apply to your site's operations.

This report explains the findings of our assessment and any action you are required to take. We categorise non-compliance using our guidance for assessing non-compliance at regulated sites.

When we find potential non-compliance/s we will normally give you advice on how to maintain compliance.

To correct non-compliance, we may:

- require you to take specific actions
- issue a notice
- review the conditions of your permit.

Any advice and guidance we give will be without prejudice to any other enforcement response that we consider may be required.

Assessment results and non-compliance categories (used in section 1):

Assessment result	Description
Assessed (A)	Assessed or assessed in part, no evidence of non-compliance found
Action only (X)	Action only relating to the activity assessment
Ongoing (O)	Ongoing non-compliance, not scored

Non-compliance category	Description
C1 Major	Potential to have a major, serious, persistent and/or extensive impact or effect on the environment, people and/or property
C2 Significant	Potential to have a significant impact or effect on the environment, people and/or property
C3 Minor	Potential to have a minor or minimal impact or effect on the environment, people and/or property
C4 No environmental impact	Non-compliance at a regulated site that cannot foreseeably have any impact on the environment, people and/or property

If your assessment result in Section 1 is suspended, what does this mean?

In line with our guidance, we may suspend non-compliance for up to six months to allow time for remedial action to be taken. These will be re-instated if the action is not completed.
