**Attachments:** P10-LYR-MAP-032 Rev 1 Additional Survey Area Request.pdf; Seabed Survey License FLOW\_LLYR\_02; SeabedSurveyLicenceAmendmentRequest\_12122023.zip

Dear Claire,

Further to our recent application for a Seabed Survey Licence (application amendment submitted on the 29<sup>th</sup> September by Jackie Hill - I have attached a copy of the email) I write to advise you of a change to the survey area and a minor alteration in survey approach.

For ease I have attached a shapefile which encompasses the total area we are required to survey. This combines the previously issued shapefiles (Drop-Down Video survey areas, and Additional Survey Area), and includes an additional area to be surveyed. Please also see attached figure showing the area to be surveyed.

As stated in our application, the drop-down video survey (which will periodically touch the seabed) will be taking place prior to the main geophysical/geotechnical/environmental survey. In addition to the drop down-video survey, we will also be required to take grab samples as part of the survey. The project has a Band 1 Marine Licence in place for the grab sampling activities, however due to the required amendment to the survey area, we will be submitting an application for another Band 1 Marine Licence to reflect this small change.

We now anticipate the 12-month SSL start date can be shifted to a start date to 8 January 2024.

My apologies for any inconvenience regarding these changes. Please let me know if you need any further information or explanation on the above.

Kind regards  
Gemma Lee  
Project Development Manager
