### **Introductory note**

**This introductory note does not form a part of the notice.**

The following notice gives notice of the variation and consolidation of an environmental permit.

This variation is a regulator-initiated variation to:

- Include conditions relating to fire risk and mitigation.
- Include an Improvement Programme Condition requiring a Fire Prevention and Mitigation Plan for the site to be produced in line with Fire prevention and mitigation plan guidance – Waste has been added.
- Update the Operating Techniques Table to include the Fire prevention and mitigation plan guidance – Waste and the Fire Prevention and Mitigation Plan provided to sign off the additional Improvement Programme Condition.
- Update the Operating Techniques Table so that outdated documents that have been superseded during ongoing compliance are removed and replaced with update documents.
- Amend the numbering of conditions.
- Added description to clarify the waste that can be accepted under 20 03 07.

The schedules specify the changes made to the permit.

The status log of a permit sets out the permitting history, including any changes to the permit reference number.
