**2d What type of activity are you applying for? (tick one)**

A discharge to a surface water, for example a river, stream, canal, lake, estuary or the sea and so on (water discharge activity) ☒

A discharge into the ground, for example a drainage area, onto land, a borehole and so on (groundwater activity) ☐

**2e When did your discharge start? (New or Existing)**

On or after 1 April 2010 (New) ☒ Go to section 3

Before 1 April 2010 (Existing) ☐ When was it built? (DD/MM/YYYY)

**3 Your management system (see guidance note to part B6.5)**

You must have a written management system to make sure that your sewage treatment facility is maintained and run effectively. You can find guidance on management systems in our 'How to Comply' document. We have also developed environmental management toolkits for some business sectors which you can use to produce your own management system. You can get this by calling 0300 065 3000 or by downloading it from our guidance webpages.

Tick this box to confirm that you have read the application form guidance and that your management system will meet our requirements. ☒

**4 Your site plan (see guidance note to part B6.5)**

You **must** provide a plan for your sewage treatment facility as part of your application. See the guidance notes on Part B6.5 for what should be included on the plan.

**We cannot process your application without a plan. If you do not send a plan we will have to contact you before we can progress your application.**

APPENDIX 2

**5 About your discharge**

**5a What type of premises does your sewage treatment facility serve?**

You must tell us, for example, the number of houses or a description such as a pub, café, restaurant, office and so on.

1 Residential House (Domestic)  
4 BEDROOMS

**5b How far away is the nearest sewer (in metres)?**

OVER 4000 METRES

You will need to check this with your sewerage undertaker (usually your local water company) and you may also need to check if it is possible to connect to a private sewer.

**5c Tell us why you think you cannot discharge your effluent into a sewer.**

If any boundaries of the premises served by the sewage treatment facility are within 30 metres of a public or private sewer you must explain why you cannot discharge your effluent into a public or private sewer.

Your justification must:

- show the extra cost of connecting to a sewer compared to the treatment you propose
- provide details of any physical obstacles; for example, roads, railways, rivers or canals.

Where you are proposing a discharge from a private sewage treatment system in an area where it appears reasonable to discharge your effluent into a sewer, you must, *as a minimum*:

- send us evidence that you have approached the sewerage undertaker, and
- send us their formal response regarding connection.

The guidance notes on part B6 will help you understand what information you need to provide in answer to this question.

**If you fail to send this information with your application, it may be returned to you without processing.**

Tell us your justification in the box below or on a separate sheet if necessary and give us the reference for the extra sheet.

**5d Tell us about the maximum volume of effluent you will discharge in a day (in cubic metres)?**

If your discharge comes from a single domestic property, use Table 1 below to work this out and answer section 5d1.

If your discharge comes from multiple domestic properties, see the notes in section 5d2 and give us your answer in that section.

**5d1 Discharges from a single domestic property.**

Use Table 1 below to help you work out the maximum discharge volume and answer in the box provided.

**Table 1 – discharges from a single domestic property**

Number of bedrooms in your house	Daily volume (cubic metres per day)
1 to 3	1
4 to 6	1.5
7 to 8	2

**5d2 Discharges from a multiple domestic properties.**

If you are discharging sewage from premises other than a single domestic property (for example, from a group of houses, a guest house or a very large house), the volume should be worked out using the industry code of practice known as 'Flows and Loads – 4', which is available from the British Water website. (To help you calculate this, we recommend you read the guidance notes on part B6.5 for more information.)

Tell us the maximum volume and how you worked it out. Answer in the boxes provided.

**5e What type of sewage treatment system will you be using to treat your effluent?**

Other

You must provide design details in the box below.

**5f Sample point location**

This does not apply if you are discharging to ground up to 5 cubic metres (5m<sup>3</sup>) a day from an existing system.

If you are making a discharge to ground from a new system, or a discharge to a surface water, you must provide a sample point where a sample of your discharge can be safely taken before it has mixed with any other discharges such as rainwater run-off. You must also identify it on the plan required by section 4

### 9 Confidentiality and national security

We will normally put all the information in your application on a public register of environmental information. However, we may not include certain information in the public register if this is in the interests of national security, or because the information is confidential.

#### Confidentiality

You can ask for information to be made confidential by ticking the box below and enclosing a letter with your application giving your reasons. If we agree with your request, we will tell you and not include the information in the public register. If we do not agree with your request, we will let you know how to appeal against our decision, or you can withdraw your application.

Confidentiality is unlikely to be applicable for a small-scale sewage discharge except for information about ex-directory telephone numbers. In those cases please write to tell us that information should not go on the public register.

**Only tick the box below if you wish to claim confidentiality for your application.**

Please treat the information in my application as confidential.

☐

## National security

You can tell the Secretary of State that you believe including information on a public register would not be in the interests of national security. You must enclose a letter with your application telling us that you have told the Welsh Ministers and you must still include the information in your application. We will not include the information in the public register unless the Welsh Ministers decides that it should be included.

You can find guidance on national security in 'Core Environmental Permitting Guidance' published by Defra.

**You cannot apply for national security via this application.**

## 10 Declaration

**You must read this section before making the declaration and sending your form to us.**

**A relevant person should make the declaration.**

You must be a relevant person or have the authority of a relevant person to sign this application on their behalf. An agent acting on behalf of an applicant is NOT a relevant person.

Each individual (or individual trustee) who is applying for their name to appear on the permit must complete this declaration. You can send a separate document with the relevant information if there are not enough spaces to sign, below.

Relevant people means each applicant, and in the case of a company, a director, manager, company secretary or any similar officer or employee listed on current appointments in Companies House. In the case of a Limited Liability Partnership (LLP), it includes any partner. If the permit holder is an organisation of individuals, each individual (or individual trustee) must complete the declaration.

To simplify and speed up the application process we recommend that the declaration is filled in by an officer of a company or one of the partners in a Limited Liability Partnership (LLP).

If you wish a manager, employee or consultant etc. to sign the declaration on behalf of a relevant person, we will need written confirmation from a relevant person; that is, an officer of the company, a partner in the LLP or the individual, confirming that the person has the authority to fill in the declaration.

If you are joint permit holders you should each fill in your own declaration. We have provided extra spaces for this below. Please send in a separate sheet with your application if you need more room for signatories.

Where the operator is the subject of any insolvency procedure, the declaration must be filled in by the official receiver/appointed insolvency practitioner.

### 10a Are you signing the form on *behalf* of a relevant person?

If you are *not* a relevant person, but want to sign the application on their behalf, you must include confirmation that you can do this.

I have included written confirmation from a relevant person to confirm I can sign on their behalf.

### 10b Declaration

If you knowingly or recklessly make a statement which is false or misleading to help you get an environmental permit (for yourself or another person), you are committing an offence under the Environmental Permitting (England and Wales) Regulations 2016.

**I declare that the information in this application is true to the best of my knowledge and belief. I understand that this application may be refused or approval withdrawn if I give false or incomplete information.**

**I understand that if I knowingly or recklessly make a false or misleading statement:**

- I may be prosecuted; and
