

## APPLICATION FOR A MARINE LICENCE FOR MARINE WORKS

**Marine Works include, but are not limited to, coast defences, beneficial uses of dredged materials, subsea cables, pontoons, jetties, land reclamation, grab samples and outfall pipes under the Marine and Coastal Access Act 2009**

Please read the notes carefully before completing the form.

- The Marine Licensing Team (MLT) administers Part 4 of the Marine and Coastal Access Act 2009 on behalf of the Licensing Authority, the Welsh Ministers.
- The completed application form must be accompanied by a location plan and, where appropriate, descriptive drawing(s) and any supporting environmental assessments. One completed hard copy of the application and supporting documents will always be required. Additional copies are required for consultation purposes.
  - For application and supporting documents less than 10MB we can accept an additional copy via email.
  - For applications larger than 10MB **16** additional copies in CD/DVD format will be required
  - When applications and supporting documents are hard copy only **16** copies will be required.
- Please submit applications to the **Permit Receipt Centre** via the details at the top of this form
- Please submit marine licence applications, including this form and all supporting documents, **at least 4 months before the licence is required.**

**Some projects may raise matters that require a significantly longer time for consideration.** These are most likely to be:

- Projects that fall **within** The Marine Works (Environmental Impact Assessment) Regulations 2007 – as amended requiring an Environmental Statement
- Large scale projects with substantial volumes of material being deposited or excavated
- Works requiring an Appropriate Assessment to be conducted under The Conservation of Habitats and Species Regulations 2017.
- Information should be provided about the anticipated **duration of the entire project** in respect of works below/seaward of Mean High Water Spring (MHWS). Where appropriate, planned phasing of the work for which consent is sought must be detailed. For projects lasting more than one calendar year, planned phasing details must be given for each 12 month period.

A licence fee is payable in respect of an application. Details of fees can be found on our web pages.

**Please note applications will not be processed without the correct relevant fee or invoicing details.**

- Payments can be made via Cheque, BACS or credit/debit card.
  - Cheques should be crossed and made payable to **Natural Resources Wales.**
  - For BACS payments ensure you provide the reference number (not remittance number)

- For credit/debit card payments please complete the CC1 form and submit with the application. The CC1 form can be found on our web pages

Further information on payment methods can be found on our web pages

- **All activities need to comply with the Water Framework Directive (WFD). The framework and guidance can be found on the Natural Resources Wales website, <http://naturalresources.wales>. The results of your WFD assessment must be attached to your marine licence application.**
- Please answer all questions. If any information is not available at the time of application please indicate in the relevant section, giving reasoning in a covering letter. Outstanding details must be submitted as soon as possible. Any delay in forwarding details is likely to result in delays in determining your application.

**Your application may not be considered complete and therefore not processed until key information has been submitted. Your application may be returned if you fail to submit outstanding information within given timescales.**

- Please note any licence may have conditions that must be discharged before works can commence. This will take additional time.
- If you have any queries with regards to completing this application please contact the MLT: [marinelicensing@naturalresourceswales.gov.uk](mailto:marinelicensing@naturalresourceswales.gov.uk)

### How your application will be processed by the MLT:

- Submit all application to the **Permit Receipt Centre** via the details at the top of this form.
- Checked and acknowledged by the MLT within 21 days of receipt of application and payment
- If the application is complete and no further information is needed at this time, your application will be placed in a work queue to be assigned a permitting officer
- If the application is not complete, further information will be request and need to be provided before the application can be considered as complete
- Our **4 months** service level for determining non-EIA applications will begin from the date the **completed** application is received (*Please note some projects may take significantly longer than 4 months to determine due to their nature*)
- EIA projects may take significantly longer due to their scale and complexity. Therefore we encourage early engagement with the MLT
- Your application and supporting documents will be sent to for an initial consultation period of 28 days (*42 days for EIA projects*)
- For the majority of projects, a public notice must be advertised. Public consultation will be 28 days (*49 days for EIA projects*).  
For EIA projects a second public notice will be required. The MLT will advise on how this should be done.
- Responses to consultation will be considered and additional information requested at this time, if necessary.

- A decision on your Marine Licence Application will be made

All information submitted may be referred to within a licence, therefore all works must be in accordance with this information, unless otherwise agreed with NRW acting on behalf of the Licensing Authority during the determination process.

**It is the responsibility of the applicant to obtain any other consents/authorisations that may be required.**

### Application Form Structure

1. Project Description and Cost
2. Applicant Details
3. Details of Agent, Contractor, Vehicles and/or Vessels used to carry out works
4. Environmental Impact Assessment (EIA)
5. Licensable Period
6. Project Description
7. Methods Statement
8. Materials of Project
9. Beach Replenishment, Land Reclamation or Salt Marsh Feeding
10. Temporary Works
11. Dredge and Disposal of Dredge Material
12. Protected Sites
13. Other Consents
14. Statutory Powers
15. Public Register
16. Application Fee
17. Declaration

### Check List

Please ensure that you have included all the necessary information before you submit your application. **If any of the below are not completed in the application form, the application is likely to be considered incomplete and may be returned to you**

Item	Yes (✓)
The applicant is a legal entity?	Yes
The declaration is signed by the applicant?	Yes
Is the application fee correct?	Yes
Are the grid references/coordinates correct?	Yes
Do the coordinates match map locations?	Yes
Have all the relevant supporting documents been submitted?	Yes
Has a clear methodology been provided in the application form?	Yes
Has Protected sites information been included?	Yes
Has a Water Framework Directive (WFD) assessment been submitted?	Yes
Are all the continuation sheets for application questions appended with correct corresponding numbers?	Yes

**Should you have any queries regarding your application please contact the MLT via [marinelicensing@naturalresourceswales.gov.uk](mailto:marinelicensing@naturalresourceswales.gov.uk)**

## 1. Project Description and Cost

### 1 (a). Project Name

Morlais, Nefyn

### 1(b). Please provide a brief description of the proposed project, including location

An existing house is to be demolished and replaced with a new timber framed dwelling on the same footprint. The project also involves slope stabilisation works, construction of new steps and access onto the beach, replacement of existing sea wall with new precast concrete construction, and remedial works to an existing concrete slipway. The property is located in an elevated position above Porth Nefyn and access for materials and site traffic is only achievable along the beach which is accessed via Lon y Traeth.

### 1(c). Please provide an estimated gross cost of the project (Inc. materials and labour) for works that fall below/seaward of Mean High Water Springs (MHWS)

£250,000

## 2. Applicant Details

To whom the licence will be issued. *This must be a legal entity such as an individual, registered company/ charity or public body.*

Title

Mr

Full Name

Christopher L Blackham

Company or Trading Name

Company Registration Number (if applicable)

Name of Contact or individual (if different)

Position in Company

Address inc. postcode (provide registered Company address if applicable)

Manor Farm  
Church End  
Leckhampstead  
MK18 5NU

Telephone Number

07739 195275

Email Address

[chris.blackham@endorphingroup.co.uk](mailto:chris.blackham@endorphingroup.co.uk)

### 3. Details of Agent, Contractor, Vehicles and/or Vessels used to carry out works

#### 3(a). Agent Details

*This is who we will correspond with unless otherwise informed. If no agent we will contact the applicant.*

Title	Mr	Full Name	Gareth Prebble
Company or Trading Name	Datrys		
Company Registration Number (if applicable)			
Name of Contact or individual (if different)			
Position in Company	Project Engineer		
Address (Inc. postcode)	Suite 1 Block C Doc Fictoria Caernarfon Gwynedd LL55 1TH		
Telephone Number	01286 671027		
Email Address	<a href="mailto:g.prebble@datrys.coop">g.prebble@datrys.coop</a>		

**3(b). Does the Applicant wish to be included in all correspondence? Yes  No**

#### 3(c). Contractor Details

*In order for contractors to benefit from the licence permission, details must be provided. Any details not provided with application must be confirmed before operations commence.*

Contractor Company or Trading Name	Address
Colin Jones (Rock Engineering) Ltd. (still to be appointed)	Unit 11/11a, Penamser Industrial Estate, Porthmadog, Gwynedd, LL49 9NZ

**3(d). Will the works require the use of vessels?**

Yes  No

**3(d) (i). Vessel Details (if applicable and available)**

In order for contractors to benefit from the licence permission, details must be provided.  
*Any details not provided with application must be confirmed before operations commence.*

Operator	Name of Vessel	Type of Vessel	Vessel Registration Number	Country of Registration

**3(e). Will the works require the use of vehicle?**

Yes  No

**3(e) (i). Vehicle Details (if applicable and available) to be used below MHWS**

In order for contractors to benefit from the licence permission, details must be provided.  
*Any details not provided with application must be confirmed before operations commence.*

Operator	Type/Description of Vehicle
Colin Jones (Rock Engineering) Ltd. (still to be appointed)	Long reach excavator (up to 21T)
	Merlo Roto 50-30
	Dumper 9T
	Telehandler

**3(f). If the contractor or vessels or vehicles are not known at the application stage, when do you expect to provide these details?**

*These details will need to be confirmed prior to the licence and operations commencement*

Contractor to confirm vehicle details once appointed and following review of the construction drawings.

#### 4. Environmental Impact Assessment (EIA)

Certain projects, due to their scale, location and/or nature, may require an EIA under the Environmental Impact Assessment Directive (Directive 85/337/EEC – as amended). If a project qualifies under EIA, an Environmental Statement (ES) must be prepared and submitted with the application.

Projects that fall within Annex I of the Directive automatically require an EIA. Projects that fall within Annex II of the Directive are assessed on a case-by-case basis for the requirement for an EIA to be undertaken.

4(a). Do you consider the works to be under the Environmental Impact Assessment Directive (Directive 85/337/EEC – as amended)? Yes  No

4(a) (i) If Yes, which Annex does the proposal fall under? Annex I  Annex II

4(a) (ii) Which number(s) within the Annex does the proposal relate to?

4(b). Have you applied for a screening or scoping opinion from the MLT under the Marine Works (Environmental Impact Assessment) Regulations 2007 (as amended)? Yes  No

4(b) (i). If Yes, please provide the reference number

4(c). Has an Environmental Impact Assessment been undertaken? Yes  No

4(c)(i). If Yes, has an Environmental Statement been submitted to support this Marine Licence application? Yes  No

4(d). If an Environmental Impact Assessment has been undertaken, but an ES has not been submitted, please provide an explanation

Please continue on a separate sheet if necessary. Please tick if you have done this

#### 5. Licensable Period

Determination of applications will be based on the works taking place during these dates. Please ensure you have included an adequate contingency period. If works are not completed by the Requested Licence Expiry Date you may be required to submit a new application. *Including a contingency period within your original application does not impact on Licence Fee*

Start Date

Requested Licence Expiry Date

Please ensure you submit your application for a Marine Licence **at least 4 months** prior to the intended start date. Some projects, such as EIA projects, will take significantly longer to determine.

## 6. Project Description

### 6(a). Please give a description of the proposed project.

This should include the purpose of the project, estimated timescales of construction and operation, and broken down by the phases of works, if applicable.

Details should include, but not be limited to, dimensions of project, quantity of material being deposited and removed.

#### Purpose of the project

The works entail the demolition of an existing house and its replacement with a new timber framed dwelling on the same footprint. The project also involves slope stabilisation works, construction of new concrete steps and access onto the beach, replacement of an existing sea wall with new precast concrete & sheet pile construction, and remedial works to an existing concrete slipway. The property is located in an elevated position above Porth Nefyn and access for materials and site traffic is only achievable along the beach which is accessed via Lon y Traeth.

The works to the sea defences and slipway are below the mean high water springs (MHWS).

#### Estimate timescales of construction & operation

The site works are due to commence in April 2024 with demolition and slope stabilisation to be carried out first. The works to the sea defences and slipway are to be carried out as soon as practicable and once the Marine License is in place. We estimate that the works seaward of the MHWS will commence no earlier than July 2024 and last for a period of approximately 8 weeks.

#### Works

A length of approximately 25m of existing sea wall (stone facing to sloping ground) is to be replaced with new precast concrete, cast in-situ concrete and sheet piled structure of similar dimensions and cross section.

We attach Datrys sketches 23321/SK01, SK02A & SKSLIP1 showing preliminary proposals for new sea wall, footpath access onto the beach and repairs to the concrete slipway.

Please continue on a separate sheet if necessary. Please tick if you have done this

### 6(b). Please detail the location of the proposed construction project.

This should be either Ordnance Survey National Grid Reference (i.e. AB 12345 67890) or Latitude and Longitude in decimal degrees to 4 decimal places (i.e. Lat 52.1234 Long - 4.1234), defining the extent of the project. **Please specify which coordinate system has been used.**

#### Ordnance Survey National Grid Reference

- A SH 29637 40863 (Latitude: 52.938049 Longitude: -4.5365147)
- B SH 29640 40860 (Latitude: 52.938022 Longitude: -4.5364717)
- C SH 29627 40853 (Latitude: 52.937956 Longitude: -4.5366568)
- D SH 29637 40835 (Latitude: 52.937795 Longitude: -4.5365096)
- E SH 29633 40833 (Latitude: 52.937780 Longitude: -4.5365666)
- F SH 29622 40854 (Latitude: 52.937961 Longitude: -4.5367363)

Please continue on a separate sheet if necessary. Please tick if you have done this   
**6(c). The following must be provided with the completed application form:**

- (i) a suitably scaled extract of an Ordnance Survey Map or Admiralty Chart with location of project, complete with **North Arrow** and **Scale**
- (ii) construction plans and sectional drawings showing those proposed works below/seaward of MHWS, which should give details of the materials to be used (for beach replenishment the quantity, particle size and source of material to be deposited and deposit location is also required).
- (iii) a descriptive schematic drawing and suitably scaled location plan which show the full extent of the project clearly in relation to the surrounding area and features.

Please list below **all supporting documents** that have been submitted with this application, including suitable documents/maps/drawing titles and reference numbers

- CML2407 Morlais\_Marine License Application
- CML2407 Morlais\_Source Pathway Receptor (Section 12c)
- CML2407 Morlais\_SMP and Coastal Squeeze Screening
- CML2407 Morlais\_WMNP Signposting
- CML2407 Morlais\_WFD Scoping Template
- CML2407 Morlais\_WFD Impact Assessment
- 240207 Morlais\_CEMP (Architect)
- Morlais\_Construction Phase Plan (Contractor)
- 223 Morlais Landscape Management Plan\_RevG
- Drawings, sketches and maps :
  - 266-A(P)-51-rev- - Site Plan - Property Boundary (Architect)
  - 23321 Morlais\_SK01 (Datrys)
  - 23321 Morlais\_SK02A (Datrys)
  - 23321 Morlais\_SKML01A (Datrys)
  - 23321 Morlais\_SKSLIP1A (Datrys)
- Email correspondence with NRW

Please continue on a separate sheet if necessary. Please tick if you have done this

The applicant should note that these drawings/plans may be copied to others as part of the MLT's consultation procedures. If they are subject to copyright, it is the **responsibility of the applicant to obtain the necessary approvals to reproduce the documents and to submit up to 16 copies with the application.**

## 7. Methods Statement

### 7(a). Please provide a detailed method statement for the works

This must include methods for all works including temporary structures or deposits such as jetties, cofferdams, moorings or landing stages to be constructed seaward of MHWS

Also refer to Contractors Construction Phase Plan.

The sequencing and methods for the works seaward of MHWS are anticipated to be as follows:

#### Sea wall (Datrys sketches 23321/SK01 & SK02A)

1. Install steel or PVC sheet piles with excavator
2. Carefully remove stone facing to existing sloping sea wall and introduce suitable temporary works (to be agreed, large bags filled with sand or similar) at base of earth batter.

3. Construct cast in situ RC base and walls (at steps to beach). Concrete assumed to be transported along beach in hoppers on tractor and trailer or dumper (half filled).
4. Place precast concrete sea wall sloping sections on earth batter with any voids at rear backfilled and compacted with granular material. Precast sections assumed to be transported along the beach using tractor and trailer (or telehandler) and lifted into place with Merlo Roto.
5. Continue with cast in situ concrete landings and upper precast retaining walls in similar fashion to lower sea wall.

Concrete slipway (Datrys sketch 23321/SKSLIP1)

1. Carefully remove section of defective concrete topping slab using pneumatic breaker and saw, and cart from site along beach using tractor and trailer or dumper
2. Drill and install stainless steel dowels.
3. Construct new section of cast in situ RC slipway. Concrete assumed to be transported along beach in hoppers on tractor and trailer or dumper.

Please continue on a separate sheet if necessary. Please tick if you have done this

**7(b). Do you intend to undertake activities that could generate underwater noise?**

This include piling, use of explosives, geophysical, acoustic deterrent devices and multibeam echosounders.

Yes  No

**7(b) (i). If Yes, what type(s) of activities will be undertaken?**

**7(b) (ii). If Yes, approximately how many days will the activity be undertaken for?**

If Yes, you will be required to complete an additional form that will be provided.

**7(c). Please state the measures to be taken to:**

- (i) Minimise risk to the marine environment

Contractor to review latest guidance on health and safety in coastal locations. Documents such as 'Construction Health & Safety in Coastal & Maritime Engineering' readily available on the government website should be reviewed and followed.

Contractor to carry out work only when safe to do so (low tide, favourable weather).

Clean-up kit to be on site at all times in the event of a spill.

(ii) Prevent undue interference to others

Suitable pedestrian management measures to be in place at all times.  
Local authority guidance on controlling noise pollution to be adhered to at all times.  
Outline Construction Environmental Management Plan provided.

(iii) Maintain navigational safety, including marking and lighting of works

Pedestrian management measures including appropriate signage to be in place at all times.

Please continue on a separate sheet if necessary. Please tick if you have done this

**8. Materials of Project**

**8(a). Description of materials to be deposited seaward of MHWS (Please tick all that apply)**

- |        |                          |            |                                     |          |                                     |                          |                                     |
|--------|--------------------------|------------|-------------------------------------|----------|-------------------------------------|--------------------------|-------------------------------------|
| Timber | <input type="checkbox"/> | Iron/Steel | <input checked="" type="checkbox"/> | Concrete | <input checked="" type="checkbox"/> | Biocides/other chemicals | <input type="checkbox"/>            |
| Silt   | <input type="checkbox"/> | Stone/Rock | <input type="checkbox"/>            | Gravel   | <input type="checkbox"/>            | Plastic/Synthetics       | <input checked="" type="checkbox"/> |
| Sand   | <input type="checkbox"/> | Other      | <input type="checkbox"/>            |          |                                     |                          |                                     |

If other, please provide a description of materials.

Sheet piles to be steel or GRP.

**8(b). Delivery method of materials to site**

If sea delivery, please include details of vessels to be used with a chart of proposed route and transshipment area. If vehicle delivery, please provide the proposed access route.

Materials to be offloaded on Lon y Traeth and transported along the beach using tractor and trailer, dumper or other (telehandler).

Please continue on a separate sheet if necessary. Please tick if you have done this

**8(c). Will the works involve removals seaward of MHWS? Yes  No**

**8(c) (i). Description of materials to be removed seaward of MHWS (Please tick all that apply)**

- |        |                          |            |                                     |          |                                     |                          |                          |
|--------|--------------------------|------------|-------------------------------------|----------|-------------------------------------|--------------------------|--------------------------|
| Timber | <input type="checkbox"/> | Iron/Steel | <input type="checkbox"/>            | Concrete | <input checked="" type="checkbox"/> | Biocides/other chemicals | <input type="checkbox"/> |
| Silt   | <input type="checkbox"/> | Stone/Rock | <input checked="" type="checkbox"/> | Gravel   | <input type="checkbox"/>            | Plastic/Synthetics       | <input type="checkbox"/> |

Sand  Other

**8(c) (ii). Description of objects/materials to be removed seaward of MHWS**  
Including quantities to be removed.

Stone cladding to existing sea wall and section of defective concrete to existing slipway to be removed and carted from site.

**9. Beach Replenishment, Land Reclamation or Salt Marsh Feeding**

For works involving any of the above, please provide the following information

**9(a). Is the material to be deposited like for like to existing material?** Yes  No

**9(a)(i) If No for Beach Replenishment please provide justification why?**

N/A

**9(b). Description of material to be deposited**

Please provide the grading specification of materials to be used, if using a range of grain sizes please state the percentage by weight passing. *If unsure, please refer to the Wentworth Scale*

N/A

Please continue on a separate sheet if necessary. Please tick if you have done this

**9(c). Source of the material to be deposited**

Including dredged or land based stating the origin of material

N/A

**9(d). Has the material been chemically analysed?**

Yes  No

If material has been analysed, we may request this information to determine the application

**9(d) (i) If Yes, is the analysis data been included with the application?** Yes  No

## 10. Temporary Works

10(a). Will there be any temporary deposits below MHWS? Yes  No

This includes construction materials, removed objects/material, jetties or cofferdams

If **Yes**, please continue with section 10

10(b). Please provide the location of temporary deposits

Please include a map/chart displaying the location of temporary deposits, if necessary.

See 10(c)

10(c). Description of temporary deposits

We have assumed that some form of temporary works will be required to support the earth (battered sand) slope one the stone cladding has been removed from the existing sea wall. We have assumed that large bags of sand or similar will be required at the base of the slope

All temporary works to be confirmed by contractor

Please continue on a separate sheet if necessary. Please tick if you have done this

## 11. Dredge and Disposal of Dredge Material

If you are undertaking Dredge and Disposal activities please also complete the Dredge and Disposal application form and submit together.

11(a). Do you intend to apply for a marine licence to dispose of dredged material to sea as part of the works in this application? Yes  No

## 12. Protected Sites

Licensing Authorities have a duty to ensure that projects will **not have significant adverse environmental impact**, particularly on any designated **European Site of Conservation Importance - Special Areas of Conservation (SAC) and Special Protection Areas (SPA), listed under the Habitats Directive (Council Directive 92/42/EEC on the conservation of natural habitats and of wild fauna and flora)**. In addition, it is Government Policy that Wetlands of International Importance (Ramsar sites) are also considered as European Sites. There is a duty to take reasonable steps to further the conservation and enhancement of nationally designated sites (Sites of Special Scientific Interest (SSSIs)).

12(a). Have you had pre-application correspondence with NRW, its legacy bodies or Natural England? Yes  No

**12(a)(i). If Yes, please provide copies of correspondence with application and state which team(s) you have contacted?**

Joe Thomas (Marine License) attached  
Arfon Hughes (SSSI Notices) attached  
Iwan Hughes (Flood Permitting) attached

Note that enquiries have also been made to Gwynedd Council and The Crown Estate.

**12(b). Are any part of the works located *within or likely to affect* a designated conservation site? (SAC, SPA, SSSI or Ramsar) Yes  No**

**12(b)(i). If Yes, which designated site(s) may be affected?**

- Special Area of Conservation (SAC) - Llyn Peninsula and the Sarnau: 15m from site
- Site of Special Scientific Interest (SSSI) – Porth Dinllaen-Borth Pistyll: 15m from site.

The designated sites extend to the base of the cliff approx. 15m from the location of the proposed new sea wall.

The designated sites extend to the sea approximately 300m north of the site.

**12(c). Please provide a description of all mitigation measures proposed to avoid any impact on designated conservation sites.**

See separate sheet.

Please continue on a separate sheet if necessary. Please tick if you have done this

**12(d). If the works are not located *within or likely to affect* a designated conservation site, please indicated the approximate distance to the nearest designated conservation site.**

Please note that if the proposed works are in or within 2km of a European Site of Conservation Importance you will have to provide suitable mitigation measure to avoid any impact on designated conservation sites.

### 13. Other Consents

Please detail all consents that you have applied for or received for these works

Type of Consent	Applied for	To be applied for	Reference Number	Date of Issue and Expiry
<b>Planning Permission under Town and County Planning Act 1990 – From Local Planning Authority (LPA)</b>	Yes		(C21/1220/42/LL)	16.12.2021 16.12.2026
<b>Name and Address of LPA for location of works</b>	Cyngor Gwynedd Council (Gwynedd Council's Headquarters, Castle Street, Caernarfon, Gwynedd, LL55 1SE)			
<b>Land Owners Consent</b> such as The Crown Estate Consent	N/A			
<b>Port Authority or Local Harbour permissions</b>	TBC	TBC		
<b>Other NRW consents</b> such as Flood Defence or SSSI assent	N/A			
<b>Details of NRW consent</b>	Marine License Only			
<b>Other consents</b> such as Transport and Works Act Order, Section 36 Electricity Act, grant/loan sanction	N/A			
<b>Details of other consents</b>				

### 14. Statutory Powers

**14(a).Does the applicant have statutory powers to consent any aspect of the project?**  
E.g. coast protection authority, dredging powers, statutory undertakers    Yes  No

**14(a)(i).If Yes, please give details and state the relevant legislation that gives these powers**

## 15. Public Register

Under The Marine Licensing (Register of Licensing Information)(Wales) Regulations 2011 and the Environmental Impact Assessment Directive (Directive 85/337/EEC – as amended) , all information contained within or provided in support of this application will be placed on the Public Register unless NRW approve of the applicant's reasons for withholding all or part.

15. Is there any information contained within or provided in support of this application that you consider should NOT be included on the Public Register on the grounds that its disclosure:

15(a). Would be contrary to the interest of National Security? Yes  No

15(b). Would prejudice to an unreasonable degree you, or some other person's commercial interest of those of a third party? Yes  No

If **Yes** to either (a) or (b), please provide full justification as to why all or part of the information you have provided should be withheld

Please continue on a separate sheet if necessary. Please tick if you have done this

## 16. Application Fee

16(a). What are the corresponding fee band for this application? Band 2  Band 3

### 16(b) Band 2 Only

Projects are charged at a fixed fee of £1920. The application will not be processed until the correct fee has been provided.

Please provide the method of payment

Method	Yes (✓)	Reference Number
Cheque		

<b>BACS</b> (not remittance no.)	Yes	PRCAPPBLACK089
<b>World Pay (phone or CC1)</b>		

Please attach **CC1 Form** with application. Can be found on our web pages

**16(c) Band 3 Application only**
