Dear Sir/Madam

Your permit variation is complete

Permit reference: EPR/AB3233DW
Operator: GP Biotec Ltd
Facility: Great Porthamel AD Plant, Talygarth, Brecon, Powys, LD3 ODL.

Our determination of your application to vary your permit to include newly prescribed activities is complete. We're satisfied that you can continue to carry out your activities in accordance with the variation, without harm to the environment or human health. I enclose a notice showing the changes to your permit, along with a separate varied and consolidated permit document. Please keep this in a safe place with your other permit records.

If your permit contains schedule 1 listed activities and separate waste activities, you will be charged separately for these. The reference that will appear on correspondence relating to charging for your the schedule 1 listed activities is EPR/DP3035WR. As your permit has been varied to include listed activities, a new reference was generated on our charging system for these activities, which operates separately to our charging system for waste sites. Please note that this does not change the permit number overall, which remains as EPR/AB3233DW.

We also include a copy of your new OPRA spreadsheet which accounts for all Schedule 1 listed activities in your permit which will be used to calculate fees relating to your site. If you have any queries regarding this spreadsheet, please discuss this with your site officer.
