How we use the non-compliance score to calculate your annual fee is explained in the 'Important Information' section below.

### 2. What action is required?

Criteria	Action needed	Complete by
IR3A	Operator has already implemented actions	Already completed

Compliance criteria codes are listed in the 'Important information' section below.

### 3. What will happen next?

Any non-compliance we have identified and recorded on this form is an offence. It can result in criminal prosecution and/or suspension or revocation of your permit.

#### **At this time, we do not intend to take any further action.**

This statement does not stop us from taking additional enforcement action if further relevant information comes to light or offences continue.

### 4. Details of our assessment

#### **Monitoring returns**

Air emissions monitoring for the A1 stack from the air treatment system is required to be undertaken once every 6 months. Monitoring was undertaken on 5th June 2023 in accordance with Condition 3.5.1 (a) and results were submitted to NRW on 26th July 2023. Odour was reported above 1,000 ouE/Nm<sup>3</sup> limit and TVOC reported above 40 mg/Nm<sup>3</sup> limit.

A Schedule 5 Part A notification was received for these breaches of emission limits. Investigations into the breaches were inconclusive and as an action the site brought forward the next round of air monitoring, as detailed below, which were in compliance with the ELV's.

**Score:** (IR3A) Emissions to Air. Permit Condition 3.1.2. Schedule 3, Table S3.1. Non-compliance score C3

**Action:** No action. Resolution already implemented by operator.

Air emissions monitoring results for A1 from 28<sup>th</sup> September 2023 were submitted to NRW on 15<sup>th</sup> November 2023. All results were compliant and below the ELVs stated in accordance with Condition 3.1.2.

Bio-aerosol monitoring was undertaken in accordance with Condition 3.5.1(c).

Table S3.4 specifies limits for bio-aerosol concentrations as:

- Total bacteria (TB) - 1000 cfu/m<sup>3</sup>
- Aspergillus fumigatus (AF) - 500 cfu/m<sup>3</sup>

Results from 3<sup>rd</sup> November 2023 were submitted to NRW on 2<sup>nd</sup> January 2024. Bio-aerosol concentrations were compliant at all sampling locations during this monitoring exercise in accordance with Condition 3.1.2.

There were no discharges to sewer during the reporting period.

The efficiency of the biofilter was monitored in accordance with Condition 3.5.1(b) and measured at 99.3%.

## Important information

### Legal status of this report

Your permit is issued to you under the Environmental Permitting Regulations. You have a responsibility to comply with the conditions of your permit and prevent pollution/harm of the environment. You must also ensure that you comply with any other relevant legislation that may apply to your site's operations.

This report explains the findings of our assessment and any action you are required to take. We categorise non-compliance using our guidance for assessing non-compliance at regulated sites.

When we find potential non-compliance/s we will normally give you advice on how to maintain compliance.

To correct non-compliance, we may:

- require you to take specific actions
- issue a notice
- review the conditions of your permit.

Any advice and guidance we give will be without prejudice to any other enforcement response that we consider may be required.

### Assessment results and non-compliance categories (used in section 1):

Assessment result	Description
Assessed (A)	Assessed or assessed in part, no evidence of non-compliance found
Action only (X)	Action only relating to the activity assessment
Ongoing (O)	Ongoing non-compliance, not scored

Non-compliance category	Description	Score
C1 Major	Potential to have a major, serious, persistent and/or extensive impact or effect on the environment, people and/or property	60
C2 Significant	Potential to have a significant impact or effect on the environment, people and/or property	31
C3 Minor	Potential to have a minor or minimal impact or effect on the environment, people and/or property	4
C4 No environmental impact	Non-compliance at a regulated site that cannot foreseeably have any impact on the environment, people and/or property	0.1

### How we use assessment scores

The number and severity of non-compliances recorded in a year will affect your annual subsistence fee the following year. A non-compliance factor is added to your site's Operator

Performance Risk Appraisal (OPRA) score when we calculate your fee to reflect the additional resource we use to assess permit compliance.

**If your assessment result in Section 1 is suspended, what does this mean?**

In line with our guidance, we may suspend scores for up to six months to allow time for remedial action to be taken. Suspended scores will be re-instated if the action is not completed.
