

Water Resources Act 1991
as amended by the Environment Act 1995
Consent to Discharge
Certificate of Holder

**ENVIRONMENT
AGENCY**

Part A

To: DWR CYMRU CYFYNGEDIG
CONSENTS REGULATION OFFICER
PLAS-Y-FFYNNON
CAMBRIAN WAY
BRECON LD3 7HP

CG0030801_2006_03_02

The **Environment Agency** ("the Agency") hereby confirm that the above named person is a/the registered holder of consent **CG0030801**

Nature of Discharge(s); **SEWAGE EFF/TREATED EFF/CONTINUOUS**
at **MYNYTHO STW**

Note: This certificate should be kept with the consent document for future reference. If you transfer responsibility for the discharge to somebody else you must pass the consent to them and tell the Agency within 21 days. **Responsibility for the consent cannot be disclaimed by the holder but the registration of holder may be transferred to a successor.** To do this please complete the form below, then tear it off and return it to the address shown. If you fail to transfer the consent, even though you are no longer on the site, you may still be liable for prosecution for pollution. If you transfer the consent but do not tell us, you will be committing an offence. In case of any queries please contact your local Environment Agency office.

Part B Please complete in block capitals or type.

To:

Water Resources Act 1991: Notice of transfer of consent to discharge

Consent:

on behalf of corporate bodies)

CONSENT VARIATION

RIVERS (CONTROL OF POLLUTION) ACTS 1951-1961

EC-00308-01

THE WATER AUTHORITIES (CONTROL OF DISCHARGES) ORDER 1978

I am directed by the Secretary of State for Wales to refer to the discharge consent in respect of the .MYNTHO..... sewage treatment works dated 1. FEBRUARY... 1964.

The Secretary of State for Wales, having consulted with the Welsh Water Authority, hereby gives notice that in exercise of his powers under Articles 4(8) and 8 of the Water Authorities (Control of Discharges) Order 1978 (SI 1978 No 1210), the conditions imposed on the said consent shall be varied in the following terms:

CONDITIONS

The quality and quantity of effluent shall not exceed the following maximum values:

Biochemical Oxygen Demand (+ ATU) over 5 days at 20°C; ... 4.9 milligrammes per litre.

Suspended Solids dried at 105°C; 60 milligrammes per litre.

Ammoniacal ammonia expressed as nitrogen milligrammes per litre.

Dry Weather Flow ~~litres per second~~ or ... 113 metres cubed per day.

Maximum rate of flow 3.9 litres per second or 339 metres cubed per day.

This variation takes effect from the ... 30. January 1985.

This notice should be retained with the consent dated 1. FEBRUARY 1964.

CONSENT REVIEW 2004**

UWWTD

[URBAN WASTE WATER TREATMENT DIRECTIVE 1991]

FILE NOTE

A snapshot of WRA 91 Discharge Consents qualifying for review under UWWTD was extracted from WIMS (EA electronic Public Register) on the 21st April 2004. All details shown on this file note are based on the permission extant as of this date.

CONSENT REF :	CG0030801	VERSION :	1		
OPERATOR :	DWR CYMRU CYFYNGEDIG				
DISCHARGE SITE :	MYNYTHO STW - STORM OVERFLOW				
EXTANT CONSENT ISSUE DATE :	30/01/1985	EFFECTIVE DATE :	30/01/1985		
DWF (m ³ /day) :	113	MAX DAILY VOL. (m ³ /day) :	339	RATE (l/s) :	3.9

Records held on WIMS show MYNYTHO STW - STORM OVERFLOW (CG0030801) to be extant under version 1 issued 30/01/1985 with numeric consent conditions, effective 30/01/1985. The works is currently consented to discharge a max daily volume of 339m³/day effluent to the TRIB. OF AFON SOCH at NGR SH3075029960.

UWWTD directive aims to deliver a standard level of sewage treatment throughout EC member states. This has been interpreted as prescribing a minimum of secondary biological treatment (package plant or equivalent) on all discharges made to a controlled surface water; or a minimum of primary (septic tank or equivalent) treatment on all discharges made to ground.

The discharge of 339m³/day effluent to 'TRIB. OF AFON SOCH', for the purposes of this review, is described as 'secondary treated effluent to surface waters'. This treatment / receiving water combination has been assessed* as APPROPRIATE under the UWWTD review. This consent is reviewed as APPROPRIATE under UWWTD as of 01/09/2005.

* NB, the assessment of this Discharge Consent to meet UWWTD 'appropriate treatment' criteria is based solely on provision of the appropriate 'threshold' level of minimum treatment for the receiving medium. This review does not assess appropriateness in terms of the specific river needs of the receiving water stretch.
