Please provide an outline of your proposal as described in Guidance Note WRX, including any sketches. If you are submitting a pre-application enquiry, this must include the quantities of water you propose to abstract. If necessary continue on a separate sheet and tick here to show that you have done this. ☒

Cog Moors Waste Water Treatment Works (WWTW) is currently being upgraded by Skanska UK Construction Ltd (Skanska) on behalf Dŵr Cymru Welsh Water. As part of the upgrade works, excavations below the water table are required. Any nuisance waters that enter the excavations, which will include groundwater, will be channelled towards two collection points (A and B) and then discharged to nearby drainage ditches. Nuisance water will be treated through a settlement tank to reduce suspended solids and regular visual checks will be made to ensure water is not turbid.

Further details of the proposed dewatering activities are presented in the Hydrogeological Impact Appraisal (HIA) prepared by Arcadis, which accompanies this application.
