On 20/02/2024, between 13:23 and 14:15.

Parts of permit assessed: Whole permit

NRW Lead Officer: Chris Gurney, accompanied by: Chloe Howard.

Report sent to: The Secretary, Permit Holder, on 23/02/2024.

1. Summary of our findings (full details in section 4)

Part of permitted activity assessed (criteria)	Assessment result	Permit condition
WQ-A1 - Management - General management	C4 No impact	3.3.1

Result types are explained in more detail in the 'Important Information' section below.

2. What action is required?

Criteria	Action needed	Complete by
WQ-A1	Maintain site to enable suitable access to sample chamber	30/08/2024

Action criteria codes are listed in the 'Important information' section below.

3. What will happen next?

Any non-compliance we have identified and recorded on this form is an offence. It can result in criminal prosecution and/or suspension or revocation of your permit.

At this time, we do not intend to take any further action.

This statement does not stop us from taking additional enforcement action if further relevant information comes to light or offences continue.

4. Details of our assessment

I attended site with Chloe Howard on 20th February 2024. The weather was windy but dry and bright.
On arrival at the site there was a slight odour within the compound area, but the site appeared tidy and secure. The electric control panel door was off, which was noticed by the Management Secretary upon his arrival and a fix attempted. The Secretary advised the tank had only recently been emptied and he was checking on it's current state to ensure the contractor had fully complied. The cover of the chamber was lifted and levels did appear to be very low. However we were unable to access the sampling chamber, which had not been replaced correctly previously, hence the minor breach.

We then attempted to identify the outfall but without definitive success, it seems most likely the outfall is one of the 4 discharge points within the small back channel adjacent to the builders yard. I advise that the Management Company investigates this further in order to confirm the exact location of the discharge point - particularly as the back channel appeared to be in a poor state of repair and the flood-flaps were not fully closing. Due to the size of the tank for the properties and only recently being emptied, it was suspected that no discharge was currently taking place, so no sampling was undertaken.

If you have any queries about this report, or to discuss completion of any actions, please contact the NRW Officer named above.

Important information

Legal status of this report

Your permit is issued to you under the Environmental Permitting Regulations. You have a responsibility to comply with the conditions of your permit and prevent pollution/harm to the environment. You must also ensure that you comply with any other relevant legislation that may apply to your site's operations.

This report explains the findings of our assessment and any action you are required to take. We categorise non-compliance using our guidance for assessing non-compliance at regulated sites.

When we find potential non-compliance/s we will normally give you advice on how to maintain compliance.

To correct non-compliance, we may:

- require you to take specific actions
- issue a notice
- review the conditions of your permit.

Any advice and guidance we give will be without prejudice to any other enforcement response that we consider may be required.

Assessment results and non-compliance categories (used in section 1):

Assessment result	Description
Assessed (A)	Assessed or assessed in part, no evidence of non-compliance found
Action only (X)	Action only relating to the activity assessment
Ongoing (O)	Ongoing non-compliance, not scored

Non-compliance category	Description
C1 Major	Potential to have a major, serious, persistent and/or extensive impact or effect on the environment, people and/or property
C2 Significant	Potential to have a significant impact or effect on the environment, people and/or property
C3 Minor	Potential to have a minor or minimal impact or effect on the environment, people and/or property
C4 No environmental impact	Non-compliance at a regulated site that cannot foreseeably have any impact on the environment, people and/or property

If your assessment result in Section 1 is suspended, what does this mean?

In line with our guidance, we may suspend non-compliance for up to six months to allow time for remedial action to be taken. These will be re-instated if the action is not completed.
