NRW Lead Officer: Chris Gurney, accompanied by: Chloe Howard.

Report sent to: Cally, Operations manager, on 27/02/2024.

1. Summary of our findings (full details in section 4)

Part of permitted activity assessed (criteria)	Assessment result	Permit condition
WQ-A1 - Management - General management	Assessed (A)	
WQ-B1 - Operations - Permitted activities	Assessed (A)	
WQ-B3 - Operations - Operating techniques	C4 No impact	2.2.1

Result types are explained in more detail in the 'Important Information' section below.

2. What action is required?

Criteria	Action needed	Complete by
WQ-B3	Update permit with accurate drawings and sample locations	21/02/2025

Action criteria codes are listed in the 'Important information' section below.

3. What will happen next?

Any non-compliance we have identified and recorded on this form is an offence. It can result in criminal prosecution and/or suspension or revocation of your permit.

At this time, we do not intend to take any further action.

This statement does not stop us from taking additional enforcement action if further relevant information comes to light or offences continue.

4. Details of our assessment

On 20th February I attended the Felinfach Griffin with my colleague Chloe Howard, the weather was cold and windy but dry during the visit.

On arrival we checked in with staff, before heading to the rear to inspect. The various manholes and layout were not as shown on the permit and took a short while to confirm the process that was now operational. Having identified the route we attempted to locate the outfall but this was not visible from the Left Bank. The reed bed appeared to be no longer in

use.

On return to the Griffin, we then discussed the current layout and the potential requirement for varying the permit. I have checked over the latest permit and there is a requirement within to maintain accurate drawings for the site layout (Condition 2.2.1), including access to the sampling point. My understanding of the setup now is that the sampling point would be the final wet-well before it's pumped to the discharge point (which doesn't appear to have changed).

You will need to vary the permit with updated drawings and sampling location to more accurately reflect the operations on site. Given the nature of this change I am proposing to follow this up in the next inspection in 2025, allowing sufficient time to vary the permit.

If you have any queries about this report, or to discuss completion of any actions, please contact the NRW Officer named above.

Important information

Legal status of this report

Your permit is issued to you under the Environmental Permitting Regulations. You have a responsibility to comply with the conditions of your permit and prevent pollution/harm to the environment. You must also ensure that you comply with any other relevant legislation that may apply to your site's operations.

This report explains the findings of our assessment and any action you are required to take. We categorise non-compliance using our guidance for assessing non-compliance at regulated sites.

When we find potential non-compliance/s we will normally give you advice on how to maintain compliance.

To correct non-compliance, we may:

- require you to take specific actions
- issue a notice
- review the conditions of your permit.

Any advice and guidance we give will be without prejudice to any other enforcement response that we consider may be required.

Assessment results and non-compliance categories (used in section 1):

Assessment result	Description
Assessed (A)	Assessed or assessed in part, no evidence of non-compliance found
Action only (X)	Action only relating to the activity assessment
Ongoing (O)	Ongoing non-compliance, not scored

Non-compliance category	Description
C1 Major	Potential to have a major, serious, persistent and/or extensive impact or effect on the environment, people and/or property
C2 Significant	Potential to have a significant impact or effect on the environment, people and/or property
C3 Minor	Potential to have a minor or minimal impact or effect on the environment, people and/or property
C4 No environmental impact	Non-compliance at a regulated site that cannot foreseeably have any impact on the environment, people and/or property

If your assessment result in Section 1 is suspended, what does this mean?

In line with our guidance, we may suspend non-compliance for up to six months to allow time for remedial action to be taken. These will be re-instated if the action is not completed.
