No action required.

3. What will happen next?

Any non-compliance we have identified and recorded on this form is an offence. It can result in criminal prosecution and/or suspension or revocation of your permit.

At this time, we do not intend to take any further action.

This statement does not stop us from taking additional enforcement action if further relevant information comes to light or offences continue.

4. Details of our assessment

On 5th Feb 2024 I attended Lake Country House Hotel to inspect the permitted sewage system. The weather was cold and windy but dry during the visit.

On arrival I was met by the owner Mr Misfud, who showed me around the site and demonstrated the route of the septic system. While this followed the path described on the permit, the Septic Tank was actually a Package Treatment Plant (PTP) which was followed by a reed bed system - which is not described on the permit. This is a beneficial additional stage of treatment although it is not described on the permit. A minor variation to the permit to include this information would be helpful, however is not compulsory.

Otherwise the site is managed by contract with a sewage company and emptied approx. 4 times a year, with the latest works due the day after my visit.

If you have any queries about this report, or to discuss completion of any actions, please contact the NRW Officer named above.
