WQ-C1	Please investigate and explain why this exceedance has taken place and explain what measures are being put in place to prevent future exceedances.	Already completed
WQ-C1	Please investigate and explain why this exceedance has taken place and explain what measures are being put in place to prevent future exceedances.	Already completed

Action criteria codes are listed in the 'Important information' section below.

3. What will happen next?

Any non-compliance we have identified and recorded on this form is an offence. It can result in criminal prosecution and/or suspension or revocation of your permit.

You are non-compliant with your permit.

At this time, we are issuing you with a warning for the non-compliance recorded above. Warnings may influence future enforcement response for continued or further non-compliance.

This statement does not stop us from taking additional enforcement action if further relevant information comes to light or offences continue.

4. Details of our assessment

Permit Breaches

A routine sample collected from A465 Section 5 and 6 Dowlais Top to Hirwaun on the 20th of February 2024 was found to contain 51mg/l of Suspended Solids and 1390mg/l of Aluminium. As per permit **Condition 3.1.2 Schedule 3** of the permit, the discharge shall contain no more than:

- 25 mg/l Suspended Solids, and
- 1000 mg/l Aluminium

Action

In response to the above, please investigate and explain why this exceedance has taken place and what action is being taken to prevent any future exceedances by the 10/04/2024.

Added 20/03/2024 by Natalie Wrangham - Discussions with the Operator suggest that the silt buster was turned on for the sample to be taken (had not been running prior to this) and had not had time to get into correct operation. The water tested was likely to have not been fully treated prior to discharge. This is likely to have led to the poor test results.

Important information

Legal status of this report

Your permit is issued to you under the Environmental Permitting Regulations. You have a responsibility to comply with the conditions of your permit and prevent pollution/harm to the environment. You must also ensure that you comply with any other relevant legislation that may apply to your site's operations.

This report explains the findings of our assessment and any action you are required to take. We categorise non-compliance using our guidance for assessing non-compliance at regulated sites.

When we find potential non-compliance/s we will normally give you advice on how to maintain compliance.

To correct non-compliance, we may:

- require you to take specific actions
- issue a notice
- review the conditions of your permit.

Any advice and guidance we give will be without prejudice to any other enforcement response that we consider may be required.

Assessment results and non-compliance categories (used in section 1):

Assessment result	Description
Assessed (A)	Assessed or assessed in part, no evidence of non-compliance found
Action only (X)	Action only relating to the activity assessment
Ongoing (O)	Ongoing non-compliance, not scored

Non-compliance category	Description
C1 Major	Potential to have a major, serious, persistent and/or extensive impact or effect on the environment, people and/or property
C2 Significant	Potential to have a significant impact or effect on the environment, people and/or property
C3 Minor	Potential to have a minor or minimal impact or effect on the environment, people and/or property
C4 No environmental impact	Non-compliance at a regulated site that cannot foreseeably have any impact on the environment, people and/or property

If your assessment result in Section 1 is suspended, what does this mean?

In line with our guidance, we may suspend non-compliance for up to six months to allow time for remedial action to be taken. These will be re-instated if the action is not completed.
