Total number of non-compliances recorded	Total non-compliance score
0	0

How we use the non-compliance score to calculate your annual fee is explained in the 'Important Information' section below.

## 2. What action is required?

No action required.

## 3. What will happen next?

Any non-compliance we have identified and recorded on this form is an offence. It can result in criminal prosecution and/or suspension or revocation of your permit.

**At this time, we do not intend to take any further action.**

This statement does not stop us from taking additional enforcement action if further relevant information comes to light or offences continue.

## 4. Details of our assessment

This report details the site visit made on the 11 March 2024 to Full Moon Waste Transfer and HWRC (Household Waste Recycling Centre), Permit number EPR- WP3490VW. Officer Carla CURTIS attended site to conduct an unannounced site inspection. The weather conditions were cold and overcast at the time of visit.

### **General observations**

The site was fully operational and fairly busy at the time of the visit. No waste was observed being stored outside of the permit boundary. There were no apparent issues with site infrastructure.

### **Other comments**

During the last inspection there had been a problem with the Vermin control system which helps to deter the seagulls. The wire had been severed due to some maintenance work being carried out. This now appeared to be in good working order.

**Image 1 Showing transfer station waste inside the building on an impermeable surface (note no seagulls on the roof)**

#### **Waste Activities**

All waste storage containers were all clearly marked, and signage was in place to inform members of the public what each bin was for.

#### **Drainage System**

The drainage is working efficiently and is regularly maintained. The drainage channels are cleaned around four times a year.

#### **Site security**

No issues with security observed. The site has CCTV which can be viewed 24/7 and has also benefited from funding for infrastructure improvements which have included a new welfare cabin, secure storage containers & fencing enhancements.

#### **Technical Competency**

The site TCM is Scott Jones. The WAMITAB certificate expires February 2026.

#### **Waste Return Submission**

These appear to be up to date and correct. The total quantity of waste accepted at this site must not exceed 74,999 tonnes per year. Based on the submitted waste return data for 2023, the total was accepted was 50,992 tonnes which is within the site's annual threshold.

No permit non-compliances were identified on this visit and thus no breaches have been scored.

## Important information

### Legal status of this report

Your permit is issued to you under the Environmental Permitting Regulations. You have a responsibility to comply with the conditions of your permit and prevent pollution/harm of the environment. You must also ensure that you comply with any other relevant legislation that may apply to your site's operations.

This report explains the findings of our assessment and any action you are required to take. We categorise non-compliance using our guidance for assessing non-compliance at regulated sites.

When we find potential non-compliance/s we will normally give you advice on how to maintain compliance.

To correct non-compliance, we may:

- require you to take specific actions
- issue a notice
- review the conditions of your permit.

Any advice and guidance we give will be without prejudice to any other enforcement response that we consider may be required.

### Assessment results and non-compliance categories (used in section 1):

Assessment result	Description
Assessed (A)	Assessed or assessed in part, no evidence of non-compliance found
Action only (X)	Action only relating to the activity assessment
Ongoing (O)	Ongoing non-compliance, not scored

Non-compliance category	Description	Score
C1 Major	Potential to have a major, serious, persistent and/or extensive impact or effect on the environment, people and/or property	60
C2 Significant	Potential to have a significant impact or effect on the environment, people and/or property	31
C3 Minor	Potential to have a minor or minimal impact or effect on the environment, people and/or property	4
C4 No environmental impact	Non-compliance at a regulated site that cannot foreseeably have any impact on the environment, people and/or property	0.1

### How we use assessment scores

The number and severity of non-compliances recorded in a year will affect your annual subsistence fee the following year. A non-compliance factor is added to your site's Operator

Performance Risk Appraisal (OPRA) score when we calculate your fee to reflect the additional resource we use to assess permit compliance.

### **What are suspended scores?**

In line with our guidance, we may suspend scores for up to six months to allow time for remedial action to be taken. Suspended scores will be re-instated if the action is not completed.
