Dear Mr Sandorf

We need more information about your application

**Application reference: PAN-024069 (EPR/AB3697CN/V004)
Operator: Radnor Hills Mineral Water Company Limited
Facility: Radnor Hills, Heartsease, Knighton, Powys, LD7 1LU**

Thank you for your application received on 06/12/2024.

I need to ask you for some more information before I can do any more work on it. Please would you:

- Supply a copy of the H1 assessment spreadsheet used to determine impact to water quality.
- Provide more information on storage and containment. This should include but not limited to:
 - What secondary containment measures (such as bunding) are in place in the area where the solutions are stored. This should include if the containment and/or bunds are constructed to the requirements of CIRIA 736.
 - The volume of the containment and if it can hold what is outlined in the guidance (110% of the largest tank or 25% of total volume, which ever is larger). This calculation should be based on highest predicted volumes kept on site (including the proposed expansion to 2 tonnes (IBCs)).
 - Specific location where the solutions are stored on site.
- Information on the application of the monitoring techniques for chloride in line with the requirements of BAT 2 and BAT 4 of best available techniques for the Food drink and milk industries: eur-lex.europa.eu/legal-
