Total number of non-compliances recorded	Total non-compliance score
0	0

How we use the non-compliance score to calculate your annual fee is explained in the 'Important Information' section below.

2. What action is required?

No action required.

3. What will happen next?

Any non-compliance we have identified and recorded on this form is an offence. It can result in criminal prosecution and/or suspension or revocation of your permit.

At this time, we do not intend to take any further action.

This statement does not stop us from taking additional enforcement action if further relevant information comes to light or offences continue.

4. Details of our assessment

On the 28 March 2024 an announced site inspection was undertaken at A J Recycling Limited permit number EPR-UP3298VL. David Ellar, Llyr Thomas and Rachel Mallinson (NRW) were accompanied around the site by Garth Masterson (General Manager Swansea Drydocks Ltd.).

The weather was grey and overcast and it had recently been raining.

As well as the Waste Permit Swansea Drydocks requires a UK licence to dismantle boats. This licence lasts 5 years and has to be renewed. Your current UK licence expires on the 02 July 2025. You will need to reapply in advance of this to us and also get HSE approval:

Permit breaches identified:

No permit breaches were observed during this visit.

Previous inspections:

No breaches or actions were identified at our previous visit CAR_NRW0040969 on the 16 January 2023.

General Observations:

The site was generally very clean and tidy with very little waste on site.

The drainage system was checked and appeared clear of debris.

Some areas of the impermeable pad were damaged but appeared (storage area in between dock and operational sheds) but appeared to still be impermeable. No waste was being stored in this area during the inspection. Please ensure that if waste are to be stored in this area the impermeable pad is maintained and repaired if necessary, as per permit conditions.

TCM:

Damien Lloyd (HSEQ Manager) is site TCM. Damien's continued competency expires 17/10/2024.

Waste returns:

Waste returns have been checked and were up to date until Q3 2023. Q3 23 returns were submitted on the 09/01.2024 and show a Null return.

Thank you for your time during our visit.

Ends.

Important information

Legal status of this report

Your permit is issued to you under the Environmental Permitting Regulations. You have a responsibility to comply with the conditions of your permit and prevent pollution/harm of the environment. You must also ensure that you comply with any other relevant legislation that may apply to your site's operations.

This report explains the findings of our assessment and any action you are required to take. We categorise non-compliance using our guidance for assessing non-compliance at regulated sites.

When we find potential non-compliance/s we will normally give you advice on how to maintain compliance.

To correct non-compliance, we may:

- require you to take specific actions
- issue a notice
- review the conditions of your permit.

Any advice and guidance we give will be without prejudice to any other enforcement response that we consider may be required.

Assessment results and non-compliance categories (used in section 1):

Assessment result	Description
Assessed (A)	Assessed or assessed in part, no evidence of non-compliance found
Action only (X)	Action only relating to the activity assessment
Ongoing (O)	Ongoing non-compliance, not scored

Non-compliance category	Description	Score
C1 Major	Potential to have a major, serious, persistent and/or extensive impact or effect on the environment, people and/or property	60
C2 Significant	Potential to have a significant impact or effect on the environment, people and/or property	31
C3 Minor	Potential to have a minor or minimal impact or effect on the environment, people and/or property	4
C4 No environmental impact	Non-compliance at a regulated site that cannot foreseeably have any impact on the environment, people and/or property	0.1

How we use assessment scores

The number and severity of non-compliances recorded in a year will affect your annual subsistence fee the following year. A non-compliance factor is added to your site's Operator

Performance Risk Appraisal (OPRA) score when we calculate your fee to reflect the additional resource we use to assess permit compliance.

What are suspended scores?

In line with our guidance, we may suspend scores for up to six months to allow time for remedial action to be taken. Suspended scores will be re-instated if the action is not completed.
