Dear Mr. Daniel James and Mrs. Carys James,

Approval of deployment application

Deployment ref: PAN-025239

Permit reference: EPR/AB3891CX

Permit holder: Mr. Daniel James and Mrs. Carys James

Location of the deployment: Hafod Farm, Ferwig, Cardigan, Ceredigion, SA43 1PU

Start of deployment period: 14/05/2024

End of deployment period: 13/05/2025

We've assessed your deployment application and agree that you may start to operate. Your deployment lasts for one year from **14/05/2024** and expires on **13/05/2025**.

You cannot begin the activities detailed in your deployment application until the date given above. If you wish to continue the activities after the expiry you must complete another deployment application.

You are required to notify us at least 48 hours but no more than 7 days in advance of the intention to commence spreading operations under this deployment. You do this by fully completing a pre-notification form available on our website- [Natural Resources Wales / Apply for deployment of a mobile plant permit](#). We will no longer accept the word-document forms after 06/05/2024.

You must comply with your permit and carry out the activities in accordance with the requirements of the agreed deployment application unless we agree otherwise in writing. The term 'deployment application' refers to the deployment form and all of the accompanying information. The accompanying information is that sent in with the deployment form and any additional information received during the assessment.

Your deployment activity should not:

- be harmful to human health, or the quality of the environment,
- cause offence to human sense,
- result in damage to material property or
- impair or interfere with amenities or other legitimate uses of the environment or use processes which could endanger human health or harm the environment.
- breach any requirements relating to cross compliance including The Water Resources (Control of Agricultural Pollution) (Wales) Regulations 2021

- breach any requirements relating to The Environmental Impact Assessment (Agriculture) (Wales) Regulations 2017
- breach any other directly applicable legislation.

If you fail to comply with these requirements you may be committing an offence and enforcement action may be taken against you. Failure to meet any of these Cross Compliance standards could result in a financial penalty being imposed by Welsh Government on the Direct Payments for the land deployed upon. This will include the Basic Payment Scheme (BPS); and Welsh Government Rural Communities - Rural Development area based schemes.

Please ensure where relevant the farmer/landowner is given a copy of the spreading records for inclusion in the farm records e.g. Glastir Activity diary and records required under The Water Resources (Control of Agricultural Pollution)(Wales) regulations 2021 both of which are a legal requirement.

If you have any queries about this matter please contact us by telephone on 0300 065 3000 or email us at enquiries@naturalresourceswales.gov.uk quoting your deployment application reference.

Any work undertaken should take account of biosecurity risks, and mitigation measures should be put in place. The most important measure is to ensure that all equipment (plant, tools, footwear etc) that come to site, arrive clean, and are cleaned again before leaving site. This applies to all sites, not just those where an invasive non-native species (INNS), pest or disease has been previously identified. Information on how to assess biosecurity risks; simple steps to reduce risks; and specific measures for higher risk activities can be found on the [GBNNSS website](#) for INNS, or for tree health on [our website](#). If you need any further help, please feel free to contact our [INNS and Biosecurity](#) team or our [Tree Health](#) team.

Yours sincerely

Louise Bailey
