Subject: RE: Marine License Application - Pwll Sea Wall (MWC1979) MCGA

Good afternoon Jo,

Please see the response of the site team below stating that they are happy to comply with the conditions.

1. All maritime safety legislation is complied with;
All Maritime legislation will be complied with.
2. Local notification is issued to marine users, including fishermen's organisations, relevant authorities and other local stakeholders, to ensure that they are made fully aware of the activity at least five days before commencement of the works;
We will contact the relevant authorities and fishermen's organisation within the area for the works.
3. Zone28@hmcg.gov.uk must be notified prior to commencement of activities.
We will contact Zone28@hmcg.gov.uk 7 days prior to works commencing.

Best wishes,

Rebekah

Dear Rebekah,

Thank you for the information regarding the proposed Pwll Sea Wall Repairs.

We note that the works comprise the manual introduction of cement soluform bags as scour repairs to the seawall to be undertaken at low tide.

On the understanding that the following takes place, the MCA would have no significant concerns to raise with regards to the safety of navigation and would be satisfied that the risk is relatively low on this occasion:

1. All maritime safety legislation is complied with;
2. Local notification is issued to marine users, including fishermen's organisations, relevant authorities and other local stakeholders, to ensure that they are made fully aware of the activity at least five days before commencement of the works;
3. Zone28@hmcg.gov.uk must be notified prior to commencement of activities.

Please can you confirm that you accept the above risk mitigations?

Kind regards,

Jo Cooke

Good afternoon,

We have been contracted by Network Rail to carry out scour repair works to the Pwll Sea Wall by the Millennium Coastal Path, Sandy, Llanelli (NGR: SN 49150 00298).

I'm in the process of applying for a Marine Licence for these works. As per Licence requirements, I need to gain confirmation from the MCGA that you have no concerns relating to the proposed works and I would be very grateful if you could review my request.

The work will involve installing cement soluform bags into the retaining sea defence wall, where it has been damaged by scour (please see attachments for further details). It is anticipated that the work will be completed within 1 day and 2-night shifts, however, this is tide and weather dependent.

If you require any further details, please do not hesitate to contact me. Otherwise, I look forward to receiving your response.

Kind regards and best wishes,

Rebekah
