4. Details of our assessment

Waste and Industry Officer; Gareth Morris attended site on the 30th of June 2023, to complete a routine site inspection. The weather was mild and dry at the time of the site inspection. Thank you to, Simon Watkins, Contracts Manager for taking the time to show me around the site. In general, the site appeared well managed at the time of the inspection and no breaches against your permit were recorded while on site.

After introductions on site, Mr Watkins informed me that the site had been mothballed and had not been in operation or accepted any waste since October 2017. Mr Watkins showed me around

the mothballed site, and everything looked in order , and the site has been returned back to its original state. Please see photographs 1,2,3 & 4.

Mr Watkins stated that the land had been sold for housing and that Tarmac were awaiting formal planning to be granted by the local authority. The planning application is in the final stages. Once the planning application has been approved Tarmac will then formally start the process of surrendering the permit they hold.

Please find the following link which will provide you with guidance on how to surrender the permit; [Natural Resources Wales / Apply to surrender \(give up\) all or part of a waste permit](#)

Thank you for showing me an up-to-date WAMITAB certificate for the site operator. We do not currently have a copy on our system. Please could you forward a copy of the certificate to Natural Resources Wales.

If you have any queries relating to this form, please do not hesitate to make contact.
