3. What will happen next?

Any non-compliance we have identified and recorded on this form is an offence. It can result in criminal prosecution and/or suspension or revocation of your permit.

At this time, we do not intend to take any further action.

This statement does not stop us from taking additional enforcement action if further relevant information comes to light or offences continue.

4. Details of our assessment

The discharge shall not contain more than 60 milligrams per litre of Suspended Solids. The sample taken on 28th of Feb 2024 produced a reading of 67 milligrams per litre of Suspended Solids. This is the 1st exceedance for Suspended Solids at this site within the last 12-month period.

This was originally reported to NRW as a LuT Failure, and a CAR issued as such. However, at this stage the result is an exceedance only. This is an update to the original car to reflect that. However, no response was received in relation to the original version of this CAR. A deadline was set of 12th April 2024. This has now passed. Please provide an explanation for the exceedance as soon as possible to
