### Introductory note

#### This introductory note does not form a part of the notice

The following notice gives notice of the variation of an environmental permit.

This is an operator-initiated variation to make the following changes:

- Add a soil washing facility to the site operations
- Increase the site boundary to allow for the new facility

No changes will be made to the sites annual throughput, of the wastes accepted at the site.

The schedules specify the changes made to the original permit.

The status log of a permit sets out the permitting history, including any changes to the permit reference number.
