Section 1 – Compliance Assessment Summary

This is based on the requirements of the permit under the Environmental Permitting Regulations or the licence under the Water Resources Act 1991 as amended by the Water Act 2003. A detailed explanation is captured in "Compliance Assessment Report Detail" (Section 2) and any actions you may need to take are given in the "Action(s)" (section 4). This summary details where we believe any non-compliance with the permit has occurred, the relevant condition and how the non-compliance has been categorised using our Compliance Classification Scheme (CCS). CCS Scores can be consolidated or suspended where appropriate, to reflect the impact of some non-compliances more accurately. For more details of our CCS scheme, contact your local office.

A routine site inspection was undertaken on Monday 24th September 2018.

It is noted that the site is now being used for vehicle auctions and there are no longer any car breaking/metal recycling activities being undertaken. There was a small amount of waste (car bumpers, panels etc.) left on site.

We discussed the potential surrender of the Environmental Permit. The following link, for our website, will provide all of the information required to complete an application to surrender the Environmental Permit.

<http://www.cyfoethnaturiolcymru.gov.uk/permits-and-permissions/waste/waste-permits/apply-to-surrender-a-waste-permit/?lang=en>

We discussed the cost of a potential permit surrender. Please read the information on the above mentioned link. If you believe you qualify for a low-risk surrender, please contact me and we can discuss this matter.

No non-compliances were recorded during the visit.

Thank you for your time during the inspection.

Other than the provision of advice and guidance, at present we do not intend to take further enforcement action in respect of the non-compliance identified above. This does not preclude us from taking enforcement action if further relevant information comes to light or advice isn't followed.
