Section 1 – Compliance Assessment Summary

This is based on the requirements of the permit under the Environmental Permitting Regulations or the licence under the Water Resources Act 1991 as amended by the Water Act 2003. A detailed explanation is captured in "Compliance Assessment Report Detail" (Section 2) and any actions you may need to take are given in the "Action(s)" (section 4). This summary details where we believe any non-compliance with the permit has occurred, the relevant condition and how the non-compliance has been categorised using our Compliance Classification Scheme (CCS). CCS Scores can be consolidated or suspended where appropriate, to reflect the impact of some non-compliances more accurately. For more details of our CCS scheme, contact your local office.

At 8:15am on 29th August 2019 Newport Wafer Fab (NWF) informed Natural Resources Wales (NRW) that a gasket had failed on a compressed air supply line on the roof of Fab 10, resulting in a noise emission of 110 decibels. The noise went on for approximately five hours before the pipe was isolated and the gasket replaced. NWF informed Newport City Council in case any local residents had complained. NRW also informed their Incident Control Centre. No complaints were received by either organisation.

NRW received the Schedule 1 Notification on 30th August 2019, detailing the cause of the problem, immediate remedial action and maintenance works planned for the December shutdown to ensure that the same failure does not recur.

Since no complaints were received about the noise, NRW will not be issuing a non-compliance for this breach of a permit condition. This may change if further information comes to light in the future.
