

Schedule 1 - Notification of abnormal emissions

This page outlines the information that the Operator must provide to satisfy conditions 5.1.1 and 5.1.2 of this Permit.

Units of measurement used in information supplied under Part A and B requirements shall be appropriate to the circumstances of the emission. Where appropriate, a comparison should be made of actual emissions and authorised emission limits.

If any information is considered commercially confidential, it should be separated from non-confidential information, supplied on a separate sheet and accompanied by an application for commercial confidentiality under the provisions of the PPC Regulations.

Part A

Permit Number	AP3433ES
Name of Operator	Kepak Group Ltd
Location of Installation	Merthyr Tydfil
Location of the emission	S1
Time and date of the emission	24/09/19

Substance(s) emitted	Media	Best estimate of the quantity or the rate of emission	Time during which the emission took place
Flow (daily)	Treated Effluent	830m3 daily	24/09/19

Measures taken, or intended to be taken, to stop the emission	At the time there was excessive flooding of the yard areas and roofs, all the pumping pits were at a high level with 2 pumps working in each pit. Hygiene night shift cleaning was postponed for 2 hours to allow effluent plant to recover somewhat and to prevent additional water entering the effluent treatment plant
---	--

Part B

Any more accurate information on the matters for notification under Part A.	The exceedance was a result of excessive rain in the area throughout the day including a heavy downpour in the morning that caused the yard areas and roofs to become excessively flooded. At the time of the flooding all the pumping pits were at a high level with 2 pumps working in each pit.
Measures taken, or intended to be taken, to prevent a recurrence of the incident	Hygiene night shift cleaning was postponed for 2 hours to allow effluent plant to recover somewhat and to prevent additional water entering the effluent treatment plant Drain investigation work carried out with areas identified for work to reduce the load on the effluent treatment plant.
Measures taken, or intended to be taken, to rectify, limit or prevent any pollution of the environment or harm which has been or may be caused by the emission	

The dates of any unauthorised emissions from the installation in the preceding 24 months.	0708/19- Emissions to Air refrigerant R448A & R404A 25/06/19- Diesel Spill 25/05/19- Emissions to Air refrigerant R404A 16/05/19- Exceedance of treated effluent daily flow 16/05/19- Exceedance of treated effluent hourly flow 15/05/19- Exceedance of treated effluent hourly flow 08/05/19- Exceedance of treated effluent hourly flow 08/05/19- Exceedance of treated effluent daily flow 02/05/19- W1 Emission of Mineral oil and hydrocarbon 30/04/19- Exceedance of treated effluent hourly flow 30/04/19- Exceedance of treated effluent daily flow 24/04/19- Exceedance of treated effluent hourly flow 24/04/19- Exceedance of treated effluent daily flow 17/04/19- Exceedance of treated effluent hourly flow 17/04/19- Exceedance of treated effluent daily flow 10/04/19- Exceedance of treated effluent daily flow 23/03/2019- Emissions to Air refrigerant- R404A 28/03/19- Spillage of effluent due to a fault in the effluent plant 22/02/19 - Exceedance of treated effluent daily flow 19/02/19 - Exceedance of treated effluent daily flow 14/02/18 - Anionic Detergent Breach 08/02/18 - Exceedance of treated effluent daily flow 19/01/19 - Emissions to Air refrigerant R448A 30/10/18 -W1 and W2 sample not taken for October. 15/11/18- S1 - Emission exceedance pH 24/01/19- Exceedance of treated effluent daily flow 23/01/19- Exceedance of treated effluent daily flow 08/01/19- Exceedance of treated effluent daily flow 03/01/19- Exceedance of treated effluent daily flow 03/01/19- Exceedance of treated effluent hourly flow Dec 18- Emissions to Air refrigerant R448A & R404A 19/12/18- Exceedance of treated effluent daily flow 14/12/18- Exceedance of treated effluent hourly flow 07/11/18- Exceedance of treated effluent hourly flow 07/11/18- Exceedance of treated effluent daily flow 02/11/18- Exceedance of treated effluent daily flow 01/11/18- Exceedance of treated effluent hourly flow 01/11/18- Exceedance of treated effluent daily flow 30/12/18- Diesel pump fault resulting in diesel spillage. 07/10/18 - Emissions to Air refrigerant R404A 24/09/18 - Emissions to Air refrigerant R404A 05/09/18 - W1 Emission of Mineral oil and hydrocarbon 05/08/18 - Emissions to Air refrigerant R404A 29/07/18- Emission to Air refrigerant R448a 26/07/18- S1 - Emission exceedance Hydrocarbons 19/07/18- S1 - Emission exceedance pH 01/05/18- Emission to Air refrigerant R448a 03/05/18- S1 - Emission exceedance pH 17/05/18- S1 - Emission exceedance Hydrocarbons 02/02/18 - W1 Emission of Mineral oil and hydrocarbon and suspended solids
