

Apply to vary a marine licence

Variation request details

Marine licence number

CML2270

Expiry date of current licence

* 31/12/2024

Licence holder name

Milford Haven Port Authority

Variation type

Routine change

Brief description of licence variation that is required.

(Identify licence condition numbers and reference the supporting documents within your current licence which are likely to be affected)

This licence variation looks to update the method for construction of the replacement Pembroke Ferry Dock dolphin mooring which was damaged by the ferry in 2022. The design for the reconstructed dolphin mooring has changed since approval of the marine licence (CML2270) from one 2.1m diameter pile to five individual 0.6m piles. Milford Haven Port Authority are also requesting that the licence expiry date is extended to December 2025.

To easily identify the proposed changes to the activity, we have 'track changed' the original licence application and attached it to this variation request.

No current licence conditions are expected to be affected by the proposed change in methodology.

Of the approved supporting documents, 'Figure 1 – Port Layout' and 'Figure 2 – Project Location' have not changed as the Dolphin U Working Area remains the same. Due to the design change proposed under this licence variation, 'Figure 3 – Construction Sequence' now displays the incorrect pile number and diameter and therefore no longer applies.

The attached document also considers how the change in methodology could affect the designated sites and the conclusion is that there would be no significant change to that originally assessed (Section 12d). The original WFD will also not be affected by the licence variation.

Please upload all supporting information for this request (where applicable)
