OUR DECISION

Based on all the information available, and having regard to all relevant considerations NRW has decided to grant the marine licence sought by the Application subject to the conditions set out in Annex 1.

This decision document:

- explains how the Application has been determined, having regard to the relevant legal framework outlined in section 4;
- explains how relevant considerations have been taken into account and how each of the legal requirements have been considered in determining the Application;
- provides a record of the decision-making process; and
- sets out the reasons for any conditions imposed in connection with any marine licence granted pursuant to the Application.

1. APPLICATION DETAILS

1.1. The Application

Applicant Name and Address	The Applicant is the organisation set out below: Organisation name: South Wales Trunk Road Agent Address: Unit 12, Llandarcy House, The Courtyard, Llandarcy, SA10 6EJ
Application Reference Number	CML2437
Date Application was duly made	19 June 2024
Proposal[s] covered by the Application	A465 Clydach underbridge scour repair and protection measures to the base of supporting piers (the Project)
Licensable marine activities	Installation of scour protection measures at the base of the supporting piers located within the right-hand riverbank. The project consists of laying scour protection adjacent to the two pile caps of the bridge pier located within the right-hand riverbank of the River Clydach and filling the voids beneath the concrete protection panels. (the Proposed Activities)
Marine Plan Area	Welsh inshore region and Welsh offshore region

Application Number: CML2437

Application documents:	CML2437 marine-works-application-form-updated - Signed 19-06-24 CML2437 WNMP FD11_201-ATK-SGN-SWTRA-RP-CB-000004 CML2437 General Arrangement Plan CML2437 Location Plan CML2437 Pier Elevation CML2437 Sections Sheet 1 of 2 CML2437 Sections Sheet 2 of 2 CML2437 8449 CEMP Rev.3 09.08.24 CML2437 Habitats Regulation Assessment_Rev1 CML2437 Centregreat - Neath Bridge Scour Works - RAMS - 12.8.24 CML2437 WFD Assessment

Application Number: CML2437

2. APPLICATION PROCEDURE

2.1. The Application

The Application was accepted by Natural Resources Wales (**NRW**) considered duly made on 19 June 2024. This means we considered it was in the correct form and contained sufficient information for us to begin our determination, but not that it necessarily contained all the information we needed to complete that determination, and the documents considered may therefore include documents provided after the Application was first made.

2.2. Documents considered

In reaching its decision, NRW has considered the documents listed in section 1 of this decision document along with such other information provided by the Applicant or received by consultees as NRW considered relevant.

2.3. Commercial Confidentiality

The Applicant made no claim that any information forming part of the Application was subject to commercial confidentiality and we have not received any information in relation to the Application that appears to be commercially confidential.

2.4. Publicity and advertising

As required by s. 68 of the Marine and Coastal Access Act 2009 (the 2009 Act), notice was given to Neath Port Talbot Council on 05 July 2024.

As required by s. 68 of the 2009 Act NRW has required the Applicant to publish notice of the Application.

Public notice advertising the Project was placed in South Wales Evening Post on 05 July 2024. The application documents were made available to the public via the Online Public Register [Public register - Customer Portal \(naturalresources.wales\)](#).

The public were given a period of 28 days from the date of the Public Notice to provide comments on the Application.

No public responses were received in response to the Public Notice.

2.5. Environmental impact Assessment

Council Directive 2011/92/EU (as amended) on the assessment of the effects of certain public and private projects on the environment aims to protect the environment and the quality of life by ensuring that projects which are likely to have significant environmental effects by virtue of their nature, size or location are subject to an environmental impact assessment (EIA) before permission is granted.

The Marine Works (Environmental Impact Assessment) Regulations 2007 ("the Regulations") transpose the EIA Directive in Wales and England for marine licence applications.

Having considered the Application NRW has determined that it does not constitute a development requiring EIA under the Regulations.

3. CONSULTATION

3.1. Consultees

Application Number: CML2437

NRW considered it appropriate to consult the bodies listed in the table below on 05 July 2024, due to their particular expertise. These bodies were consulted for a period of 28 days. For those bodies which responded to the consultation an 'Y' can be found in the response received column, and those which did not respond to the consultation an 'N':

Consultee	Response received (Y/N)	Date(s) of receipt
The Crown Estate	N	
NRW	Y	05 August 2024 15 August 2024
MoD - Safeguarding Defence	N	
Maritime & Coastguard Agency	Y	25 July 2024
Trinity House	Y	02 August 2024
Royal Yachting Association	Y	14 August 2024
Local Biodiversity Officer (<i>Neath Port Talbot</i>)	Y	01 August 2024, 05 August 2024
Local Planning Authority (<i>Neath Port Talbot</i>)	Y	01 August 2024, 05 August 2024
Local Harbour Authority (<i>ABP Ports</i>)	N	
Local Port Authority (Neath)	N	
Local Port Authority (Port Talbot)	N	
Welsh Fishermen's Association	N	
Welsh Government Marine Enforcement Officers	Y	02 August 2024
Cadw	Y	23 July 2024
Welsh Archaeological Trust	Y	12 July 2024
Royal Commission on the Ancient and Historical Monuments of Wales	N	
Environmental Public Health Service Wales	Y	19 July 2024
Chamber of Shipping	N	

Consultees who did not provide a response were assumed to have no comment.

Application Number: CML2437

NRW has had regard to all consultation responses received in making its decision. Where these have impacted on NRW's decision making, this has been noted in the relevant paragraph in section 4 of this decision document.

Application Number: CML2437

4. BASIS FOR OUR DECISION

In determining this application, including the terms on which it was granted, and the conditions attached to it, NRW has had regard to the factors set out in section 4 below in accordance with the 2009 Act.

Under the 2009 Act NRW is required to have regard to the following:

- the need to protect the environment (see section 4.1);
- the need to protect human health (see section 4.2);
- the need to prevent interference with legitimate uses of the sea (see section 4.3);
- in the case of an application for a licence to authorise construction, alteration or improvement of works within the UK marine licensing area, the effects of any use intended to be made of the works in question when constructed, altered or improved (considered, if relevant in sections 4.1 to 4.5 below);
- any representations which it has received from any person having an interest in the outcome of the Application (summarised in section 3 and where relevant considered in sections 4.1 to 4.5 below); and
- such other matters as it thinks relevant (see section 4.5 below).

4.1. The need to protect the environment:

The reference to the “environment” includes the local and global environment; the natural environment; and, by virtue of section 115(2) of the 2009 Act, any site of historic or archaeological interest. The natural environment may include the physical, chemical and biological state of the sea, the seabed and the seashore, and the ecosystems within it, or those that are directly or indirectly affected by an activity, whether within the marine licensing area or otherwise.

In considering the need to protect the environment we have considered the relevant environmental legislation set out below.

4.1.1. Water Framework Directive, Groundwater Directive and Water Environment Regulations

a) The legal framework

The Water Environment (Water Framework Directive) (England and Wales) Regulations 2017 (**Water Environment Regulations**) implement the requirements of the Water Framework Directive (**WFD**) (Directive 2000/60/EC) which requires consideration as to whether that proposals for development may cause deterioration or prevent a water body from achieving ‘good status’. Proposals likely to cause deterioration or prevent a waterbody from achieving good status should be rejected, unless derogation procedures have been applied.

Under the Water Environment Regulations, NRW must exercise its relevant functions to ensure compliance with the requirements of the WFD, the Environmental Quality Standards Directive (Directive 2008/105/EC) and the Groundwater Directive (Directive 2006/118/EEC).

b) Factors relevant to our determination

Application Number: CML2437

NRW has considered the potential effect of the Proposed Activities on the following WFD waterbodies:

- Neath Estuary (GB541005800700)

NRW Advisory requested the following additions to the method statement produced by Kaymac Ltd.:

- That crush and run material to be used to form the temporary access ramp and track is using only quarried stone used (as opposed to a recycled aggregate) to reduce the risk of pollution by hydrocarbon-based materials such as asphalt and bitumen products.
- That the surface of the track and ramp should be kept free of mud and silt to prevent contaminated run-off from entering the River Clydach during periods of rainfall.
- Clarification around the method to be used to install the ground anchors and mitigations where vibration equipment is to be used.
- That a dedicated area for washing out of cementitious products is identified.
- That disinfection of tools and equipment is not undertaken in close proximity of any watercourse or surface water drain.
- Should excavations need to be dewatered, there should be sufficient treatment provided to ensure that the water is visually clear prior to being discharged, preferably overland prior to being returned to a watercourse.
- To mitigate impacts on fish, the NRW Advisory requested that the (Construction Environmental Management Plan (CEMP) shows commitment that no flood lamps will be used over the river at night. This was also included in the cover letter to the marine licence

A revised CEMP (*CML2437 8449 CEMP Rev.3 09.08.24*) and Method Statement (*CML2437 Centregreat - Neath Bridge Scour Works - RAMS - 12.8.24*) were submitted on 09 August and 12 August 2024 respectively. NRW Advisory confirmed that all concerns were resolved on the 15 August 2024.

A Water Framework Directive Compliance Assessment has been undertaken for the Proposed Activities and considered in this decision. This assessment concludes that after a detailed compliance assessment (Stage 3) and taking account of the advice received from technical specialist advisors, the project has no potential to cause deterioration or prevent a water body from meeting its objectives.

Based on this assessment it is considered that the Proposed Activities when considered alone and in combination, will not pose a risk to deterioration in the status of any of the above listed waterbodies or jeopardise their attainment of good surface water status when undertaken in accordance with appropriate conditions, i.e. condition 3.18 which requires the implementation of actions within the CEMP.

Further details are described within the Water Framework Directive Compliance Assessment.

4.1.2. Biodiversity and resilience of ecosystems duty

a) The legal framework

Section 6 of the Environment Wales Act 2016 requires that we seek to maintain and enhance biodiversity in the exercise of our functions, and in so doing promote the resilience of ecosystems, in a manner that is consistent with the proper exercise of our functions.

b) Factors relevant to our determination

The Neath Port Talbot Council indicated that not enough information was provided to assess the impact of the scheme on Section 7 of the Environment (Wales) Act 2016 and requested an Extended Phase 1 survey to assess the project in a local setting. However, no concerns in relation to impacts on the section 7 species/habitats was raised by the NRW Advisory consultation response. Therefore, on this occasion and considering the magnitude, location and the risk posed by the proposed works, NRW considers that the Proposed Activities will pose no risk when undertaken in accordance with appropriate conditions, i.e. condition 3.18 and 3.19 which requires the implementation of actions within the CEMP and Risk Assessment Method Statement (RAMS).

NRW is satisfied that in this case, we have taken into account and had due regard to this duty in so far as it is consistent with the function of determining an application for a Marine Licence under the Marine and Coastal Access Act 2009.

4.1.3. European Protected Sites and Ramsar Sites

a) The legal framework

European sites are those designated under the Conservation of Habitats and Species Regulations 2017 (**Habitats Regulations 2017**) and the Conservation of Offshore Marine Habitats and Species Regulations 2017 (**Offshore Habitats Regulations 2017**) as Special Protection Areas (SPAs) and Special Areas of Conservation (SACs).

The Habitats Regulations 2017 and the Offshore Habitats Regulations 2017 require that any project that is likely to have a significant effect on a European site or a European offshore marine site (either alone or in combination with other plans or projects) must be subject to an appropriate assessment. NRW undertakes a Habitats Regulation Assessment (HRA) to establish whether an appropriate assessment is required.

In addition, NRW must exercise its functions under the 2009 Act to secure compliance with the requirements of the relevant European Directives. NRW also has a duty under the Habitats Regulations 2017 to support wild birds by protecting habitats and avoiding pollution.

A Ramsar site is a wetland which has been designated under the Ramsar Convention. The Ramsar Convention does not place specific legal requirements on its parties (though Ramsar sites are often SSSIs or SPAs, considered below), however Ramsar status is considered by NRW as matter of policy in its decision making.

b) Factors relevant to our determination

The Project may affect the following European Protected Site:

- Crymlyn Bog/ Cors Crymlyn SAC and Ramsar site (3.2 km)

A Habitats Regulations Assessment of the Proposed Activities has been undertaken, and NRW Advisory (as Appropriate Nature Conservation Body) consulted on the HRA.

The following conclusions of the HRA have been considered by NRW in making this decision. NRW considers that the project is not likely to have a significant effect on any Natura 2000 site, because there is no impact pathway from the project to any Natura 2000 features.

Further details are described within the Habitats Regulations Assessment.

Application Number: CML2437

NRW is therefore satisfied that the Proposed Activities, either alone or in combination with other plans or projects, will not adversely affect the integrity of European Site(s) when undertaken in accordance with appropriate conditions, i.e. 3.18 and 3.19 which requires the implementation of actions within the CEMP and RAMS.

4.1.4. European Protected Species**a) The legal framework**

The Habitats Regulations 2017 and the Offshore Habitats Regulations 2017 also confer protection on certain designated species (European Protected Species). A licence (EPS licence) must be obtained in order, whether deliberately or accidentally, to capture, kill, disturb or injure such a species, damage or destroy their breeding or resting places or obstruct access to their resting or sheltering places.

b) Factors relevant to our determination

NRW considers that no protected species are likely to be impacted by the Project.

Any determination made as part of this decision are without prejudice to the consideration NRW is required to give an EPS licence application as the body with a statutory responsibility for its determination and do not constrain or bind NRW in exercising this function. Should an application for an EPS licence in relation to the Project be made it will be determined by NRW based on all the relevant information available to NRW at that time.

4.1.5. Marine Conservation Zones**a) The legal framework**

Marine Conservation Zones (MCZ) were established under the 2009 Act to protect nationally important, rare or threatened habitats and species. The only currently designated MCZ in Wales is Skomer.

Under the 2009 Act, NRW must exercise its functions in the manner which it considers best furthers the conservation objectives stated for any MCZ or, where that is not possible, in the manner which it considers least hinders the achievement of those objectives.

b) Factors relevant to our determination

NRW is satisfied that there is no significant risk of the Proposed Activities on the Skomer MCZ.

4.1.6. Sites of Special Scientific Interest (SSSIs)**a) The legal framework**

Sites of Special Scientific Interest are designated under the Wildlife and Countryside Act 1981 (**1981 Act**) and protected by law to conserve their wildlife or geology. NRW must take reasonable steps, consistent with the proper exercise of its functions, to further the conservation and enhancement of the flora, fauna or geological or physiographical features by reason of which an SSSI is of special scientific interest.

b) Factors relevant to our determination

NRW has considered the impact of the Project on the following sites:

Application Number: CML2437

- Crymlyn Bog/ Cors Crymlyn SSSI (3.2 km)

NRW is satisfied that the Proposed Activities do not have the potential to impact on *the above mentioned site when* undertaken in accordance with appropriate conditions, i.e. 3.18 and 3.19 which requires the implementation of actions within the CEMP and RAMS.

4.1.7. The Waste (England and Wales) Regulations 2011**a) The legal framework**

The Waste (England and Wales) Regulations 2011 (as amended) establish a legal framework for treating waste. This is designed to protect the environment and human health by emphasising the importance of proper waste management, recovery and recycling techniques to reduce pressure on resources and improve their use. Waste generated by a project or activity must in general terms be dealt with in an environmentally friendly way. To achieve this the regulations describe a waste hierarchy which gives an order of preference for how waste is dealt with (prevention, re-use, recovery for other purposes such as energy, and finally disposal).

b) Factors relevant to our determination

NRW is satisfied that the Proposed Activities meet the requirements of The Waste (England and Wales) Regulations 2011 when undertaken in accordance with appropriate conditions, i.e. 3.18 which requires the implementation of actions within the CEMP as an Ecological Clerk of Works will be supervising the activity.

4.1.8. Other matters considered relevant to the need to protect the environment

NRW Advisory indicates that headwall adjacent to the road bridge is a Welsh Waters discharge outfall where untreated sewage may be discharged, intermittently. This has been passed to the licence holder as an advisory note in the cover letter to the marine licence.

4.1.9. Conclusion of our considerations under the need to protect the Environment

In summary, having considered the need to protect the environment, NRW does not consider that any impacts of the Project on the environment (either alone or in combination with other plans or projects) are sufficient on their own to justify refusal of the Application provided that the Proposed Activities are implemented in accordance with the conditions set out in Annex 1.

4.2. The need to protect human health

NRW Advisory indicates that headwall adjacent to the road bridge is a Welsh Waters discharge outfall where untreated sewage may be discharged, intermittently. This has been passed to the licence holder as an advisory note in the cover letter to the marine licence

4.2.1. Conclusion of our considerations under the need to protect human health

In summary, having considered the need to protect human health, NRW does not consider that any impacts of the Project (either alone or in combination with other plans or projects) are sufficient on their own to justify refusal of the Application provided that the Proposed Activities are implemented in accordance with the conditions set out in Annex 1.

4.3. The need to prevent interference with legitimate uses of the sea

Application Number: CML2437

Legitimate uses of the sea include (but are not limited to): navigation (including taking any steps for the purpose of navigational safety); fishing; mineral extraction; and amenity use.

The Maritime and Coastguard Agency (MCA) indicated that the area falls within the jurisdiction of the Neath Canal Navigation Company and the Port Tennant Company. NRW made these authorities aware of the public consultation through their website but received no response. NRW considers that notice to mariners included in standard notification conditions should be enough to mitigate and risk. However, NRW has included an advisory note to the cover letter of the marine licence requesting the licence holder to ensure that the appropriate Navigation Authority is made aware of the commencement of works (condition 3.1.3).

4.3.1. Conclusion of our considerations regarding the need to prevent interference with legitimate uses of the sea

In summary, having considered the need to protect interference with legitimate uses of the sea, NRW does not consider that any impacts of the Project (either alone or in combination with other plans or projects) are sufficient on their own to justify refusal of the Application provided that the Proposed Activities are implemented in accordance with the conditions set out in Annex 1.

4.4. Marine Policy Documents**a) The Legal framework**

NRW is required to take its decision in accordance with the appropriate marine policy documents unless relevant considerations indicate otherwise.

UK Marine Policy Statement 2011 (MPS)

The MPS is the framework for preparing Marine Plans and taking decisions affecting the marine environment.

Welsh National Marine Plan (WNMP)

The WMNP is the Marine Plan for the Welsh inshore region and the Welsh offshore region and sets out the Welsh Government's policies for and in connection with the sustainable development of this area.

b) Our determination**UK Marine Policy Statement 2011**

This decision has been taken in accordance with marine policy as set out in the UK Marine Policy Statement 2011.

Welsh National Marine Plan

This decision has been taken in accordance with marine policy as set out in the Welsh National Marine Plan (as assessed in *CML2437 WNMP FD11_201-ATK-SGN-SWTRA-RP-CB-000004*).

In particular:

- SOC_08 Resilience to coastal change and flooding, the proposal demonstrates that the protection measures have been designed to withstand flood events and flexibility to react to changes to the riverbed/riverbanks.

Application Number: CML2437

- SOC_11 Resilience to climate change: the applicants confirms that and allowance for climate change was utilised within the hydraulic model used to determine the peak velocity for the design event.

4.5. Other matters NRW thinks relevant**4.5.1. Well-being of Future Generations (Wales) Act 2015****a) The legal framework**

In making its decision, NRW is required to take all reasonable steps to meet its published well-being objectives, which are designed to maximise NRW's contribution to achieving each of the well-being goals set out in the Well-being of Future Generations (Wales) Act 2015. NRW must also act in accordance with the principles of sustainable development.

b) Our determination

NRW has taken into account its well-being objectives and is satisfied that its decision is consistent with meeting those objectives.

NRW is also satisfied that its decision is consistent with the sustainable development principle i.e. seeking to ensure that the needs of the present are met without compromising the ability of future generations to meet their own needs.

4.5.2. Sustainable management of natural resources**a) The legal framework**

NRW's general purpose is to pursue the sustainable management of natural resources in relation to Wales and applying the principles of sustainable management of natural resources as set out in section 4 of the Environment (Wales) Act 2016 so far as consistent with the proper exercise of its functions.

b) Our determination

NRW is satisfied that this decision, when implemented in accordance with the attached conditions, is consistent with its general purpose of pursuing the sustainable management of natural resources in relation to Wales, and applying the principles of sustainable management of natural resources.

5. Conclusions and Recommendations

Based on all the information available, and having regard to all relevant considerations including the consultation responses, NRW's decision is to grant the Marine Licence sought by the Application. We have reached this decision having had regard to the relevant legal framework outlined in section 4 and have also explained in section 4 how each of the legal requirements have been considered. NRW has determined that a Marine Licence for the Proposed Activities should be granted.

Conditions have been attached to the Marine Licence as set out in Annex 1. The reason for the inclusion of each condition is set out with the conditions.

6. AUTHORISATION

Application Number: CML2437

Report by: Maria Alvarez Position: Lead Specialist Marine Licensing Officer	Date: 16 August 2024	Signed: 
Authorised by: Emmer Litt Position: Marine Licensing Team Leader	Date: 16 August 2024	Signed: 

Application Number: CML2437

ANNEX 1

Conditions imposed and reasons for those conditions.

Note: Condition numbers used below reflect the condition numbers used in the licence.

CONDITIONS

Notification and Inspection

3.1 Notification of Commencement

- 3.1.2** The Licence Holder must notify the Licensing Authority no less than **10 days** before the commencement of the Licensed Activities, or an individual phase of the Licensed Activities, is expected to commence.

Reason: To ensure the Licensing Authority are aware of the commencement of Licensed Activities.

- 3.1.2** The Licence Holder must notify Welsh Government Marine & Fisheries Division (Control & Enforcement Branch) no less than **10 days** before the commencement of the Licensed Activities, or an individual phase of the Licensed Activities, is expected to commence.

Reason: To ensure the Marine Enforcement Officers are aware of the commencement of Licensed Activities.

- 3.1.3** The Licence Holder must ensure that local mariners and fishermen's organisations are made fully aware of the Licensed Activities through local notices to mariners **10 days** prior to the commencement of the Licensed Activities.

Reason: To minimise interference with other sea users and ensure other vessels in the vicinity can safely plan and conduct their passage.

3.2 Notification of Vessels and/or Vehicles

The Licence Holder must ensure that the details of the vessels and/or vehicles utilised to undertake the Licensed Activities are submitted to the Licensing Authority and Welsh Government Marine & Fisheries Division (Control & Enforcement Branch) at least **24 hours** prior to the commencement of the Licensed Activities.

Reason: To ensure that the Licensing Authority are made aware, in a timely manner, of the vessels and/or vehicles operating under this licence to enable the Licensing Authority to comply with the reporting obligations in the Marine Licensing (Register of Licensing Information (Wales) Regulations 2011 as amended.

3.3 Notification of Agents/Contractors/Sub-contractors

The Licence Holder must ensure that details of any agent(s), contractor(s) or sub-contractor(s) utilised to undertake the Licensed Activities are submitted to the Licensing Authority at least **24 hours** prior to the commencement of Licensed Activities.

Application Number: CML2437

Reason: To ensure that the Licensing Authority are made aware, in a timely manner, of the agent(s), contractor(s) or sub-contractor(s) operating under this licence and in order to enable the Licensing Authority to comply with the reporting obligations in the Marine Licensing (Register of Licensing Information (Wales) Regulations 2011 as amended.

3.4 Notification of HM Coastguard

The Licence Holder must ensure that HM Coastguard is made aware of the Licensed Activities at least **24 hours** prior to commencement by contacting The National Maritime Operations Centre at **zone28@hmcg.gov.uk**.

Reason: To ensure the safety of navigation.

3.5 Inspection of Licensed Activities

The Licence Holder must allow Marine Enforcement Officers or any other person authorised by the Licensing Authority to inspect the Works at any reasonable time.

Reason: To allow for inspection of the Licensed Activities to check compliance with the Licence.

3.6 Notification of Completion

- 3.6.1** The Licence Holder must notify the Licensing Authority within **10 days** of completion of the Licensed Activities.

Reason: To ensure the Licensing Authority are aware of the completion of Licensed Activities.

- 3.6.2** The Licence Holder must notify Welsh Government Marine & Fisheries Division (Control & Enforcement Branch) within **10 days** of completion of the Licensed Activities.

Reason: To ensure the Marine Enforcement Officers are aware of the completion of Licensed Activities.

3.7 Accident or Emergency

- 3.7.1** If, by reason of force majeure any substances or articles are deposited otherwise than as permitted as part of the Licensed Activities or in the Licensed Area full details of the circumstances shall be notified to the Licensing Authority within **48 hours** of the incident occurring.

Reason: To allow the Licensing Authority to take appropriate action to ensure the appropriate removal of the unlicensed deposit.

- 3.7.2** If it is necessary for the Licence Holder to recover or remove any equipment, plant or machinery used to undertake the Licensed Activities that have been dropped as a result of an accident or emergency, the Licence Holder is permitted to do so provided that

Application Number: CML2437

the methodology for such recovery or removal has been approved by the Licensing Authority.

Reason: To allow for the recovery of objects that have been accidentally dropped when carrying out the Licensed Activities.

3.8 Distribution of Copies of this Licence

The Licence Holder is required to ensure that a copy of this Licence is given to:

- All agents, contractors and subcontractors whose names have been provided to the Licensing Authority under condition 3.3 and
- The Masters of any vessels and transport managers responsible for the vehicles employed in accordance with this Licence whose details have been submitted to the Licensing Authority under condition 3.2.

Reason: To ensure that all agent(s), contractor(s), sub-contractor(s) and vessel Masters are aware of their obligations under the conditions established within this Licence to ensure compliance with the conditions.

3.9 Inspection of Documents

Copies of this Licence shall be made available at the following locations:

- at the address of the Licence Holder specified in section 1.2;
- at any site office, located at or adjacent to the Licensed Area, used by the Licence Holder or its agent(s), contractor(s) or sub-contractor(s) responsible for the loading transportation or deposit of any substances or articles permitted as part of the Licensed Activities;
- on board each vessel or vehicle carrying out Licensed Activities.

The documents referred to in this Condition shall be available at all reasonable times for inspection by officers appropriately authorised by the Licensing Authority and authorised Marine Enforcement Officers at the locations stated in that paragraph.

Reason: To ensure that all agent(s), contractor(s), sub-contractor(s) and vessel Masters may access the details of this Licence at all times and to ensure that the details of this Licence are available for inspection when required.

Vessels, Plant and Equipment

3.10 Notified Contractors, Vessels and/or Vehicles only to Carry out Licensed Activities

Only those agent(s), contractor(s), sub-contractor(s), vessels and/or vehicles whose details have been notified to the Licensing Authority may operate under the terms of this Licence. Any changes must be notified to and be approved by the Licensing Authority in writing prior to any such agent, contractor,

Application Number: CML2437

subcontractors or vehicles carrying out any Licensed Activities pursuant to or otherwise operating under this Licence.

Reason: To ensure that the Licensing Authority are made aware, in a timely manner, of the agent(s), contractor(s), sub-contractor(s) operating under this Licence to enable the Licensing Authority to comply with the reporting obligations in the Marine Licensing (Register of Licensing Information (Wales) Regulations 2011 as amended.

3.11 Refuelling of Plant and Equipment

The Licence Holder must ensure that plant, vehicles and machinery are not refuelled on the foreshore or in the sea.

Reason: To minimise the risk of fuels/other contaminants entering the marine environment.

3.12 Equipment, Structures and Access

The Licence Holder must ensure that all equipment, temporary structures, access tracks, waste and/or debris associated with the Licensed Activities are removed on completion of the Licensed activities.

Reason: To minimise impacts on the marine environment and other users of the sea/seabed.

Safety**3.13 Removal of Deposited Material**

If the Licensing Authority considers it necessary or advisable for the safety of navigation, the Licence Holder must remove any deposit specified by the Licensing Authority or Marine Enforcement Officers within one month of notice being given by the Licensing Authority, and shall not replace such material until the Licensing Authority has given its written approval.

Reason: To ensure that any material which may pose a hazard to safe navigation has been removed.

Pollution control**3.14 Pollution Prevention**

The Licence Holder must ensure that pollution prevention best practice is adhered to at all times. Any incidents must be reported to the Licensing Authority as soon as possible using the hotline number **0300 065 3000**.

Reason: To minimise the risk of pollution incidents and to ensure the timely report of such incidents to enable the Licensing Authority to take action as appropriate.

3.15 Spillage of Pollutants

The Licence Holder must employ bunding, storage facilities and spill kits to contain and prevent the release of fuel, oils and chemicals associated with the plant, refuelling and construction equipment into

Application Number: CML2437

the marine environment. Secondary containment must be used with a capacity of **no less than 110%** of the container's storage capacity

Reason: To minimise the risk of fuels/other contaminants entering the marine environment.

3.16 Prevention of Disposal of Man-made Debris

The Licence Holder must ensure that all reasonable precautions are taken to prevent the disposal of man-made debris to the marine environment. Such material must be removed immediately and be disposed of appropriately. If it is not possible to prevent manmade debris from entering the marine environment during the Licensed Activities, the Licensed Activities must cease immediately.

Reason: To minimise the amount of man-made materials disposed of at sea.

3.17 Cleanliness of Equipment

The Licence Holder must ensure that equipment, machinery and PPE are washed with freshwater and/or thoroughly airdried before deployment and before moving between locations.

Reason: To minimise the risk of spread of invasive non-native species.

Activity-specific Conditions

3.18 Implement Actions Within the Construction Environmental Management Plan (CEMP)

The Licence Holder must implement any actions outlined in the CEMP, submitted 09 August 2024 and detailed in section 2.3 as approved by the Licensing Authority. Any proposed changes to the actions outlined in the *CML2437 8449 CEMP Rev.3 09.08.24* must be submitted to, and approved in writing by the Licensing Authority prior to any changes being enacted.

Reason: To ensure mitigation/actions are implemented as approved.

3.19 Implement Actions Within the Risk Assessment Method Statement (RAMS)

The Licence Holder must implement any actions outlined in the RAMS, submitted 12 August 2024 and detailed in section 2.3 as approved by the Licensing Authority. Any proposed changes to the actions outlined in the *CML2437 Centregreat - Neath Bridge Scour Works - RAMS - 12.8.24* must be submitted to, and approved in writing by the Licensing Authority prior to any changes being enacted.

Reason: To ensure mitigation/actions are implemented as approved.
